As Chaffey High School has progressed since its founding in 1911, it has developed its own unique personality. In its 75 years of existence, CHS has acquired the reputation of a "traditional school."

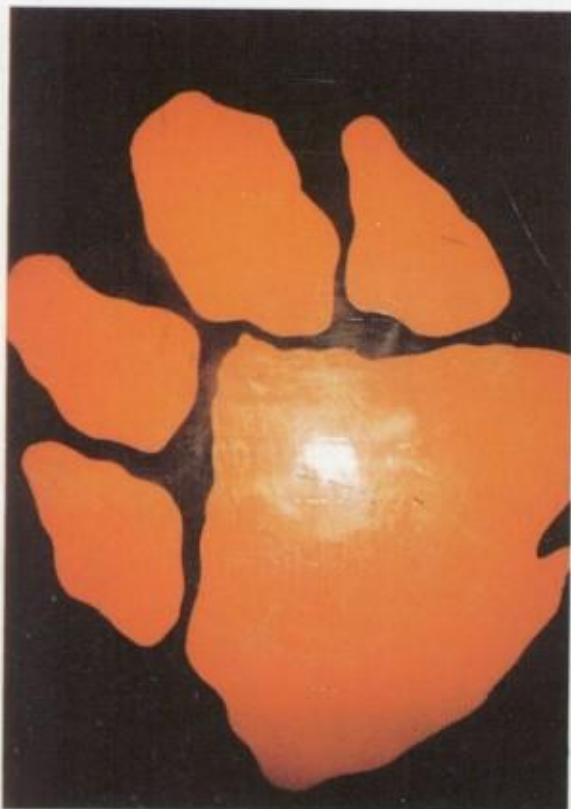

Chaffey's heritage is colorful. The arrival of the Chaffey Brothers in 1882 has been followed by 75 sparkling years, each bringing with it new activities and traditions. As Chaffey celebrated its Diamond Jubilee it is necessary to look at the different aspects of the school which make it extraordinary.

Although our past is rich, our future is promising. A new football coach brought with him hope for improved Fall athletics. The refurbishing plans of South Hall and Gardiner Spring Auditorium gave the campus a needed "face lift." Each aspect of the school — athletics, academics and activities — helped to bring out the potential of every individual. Thus, in our diamond year, our past, future and set of diverse personalities and activities came together to form **THE MANY FACETS OF THE STONE.** ♦

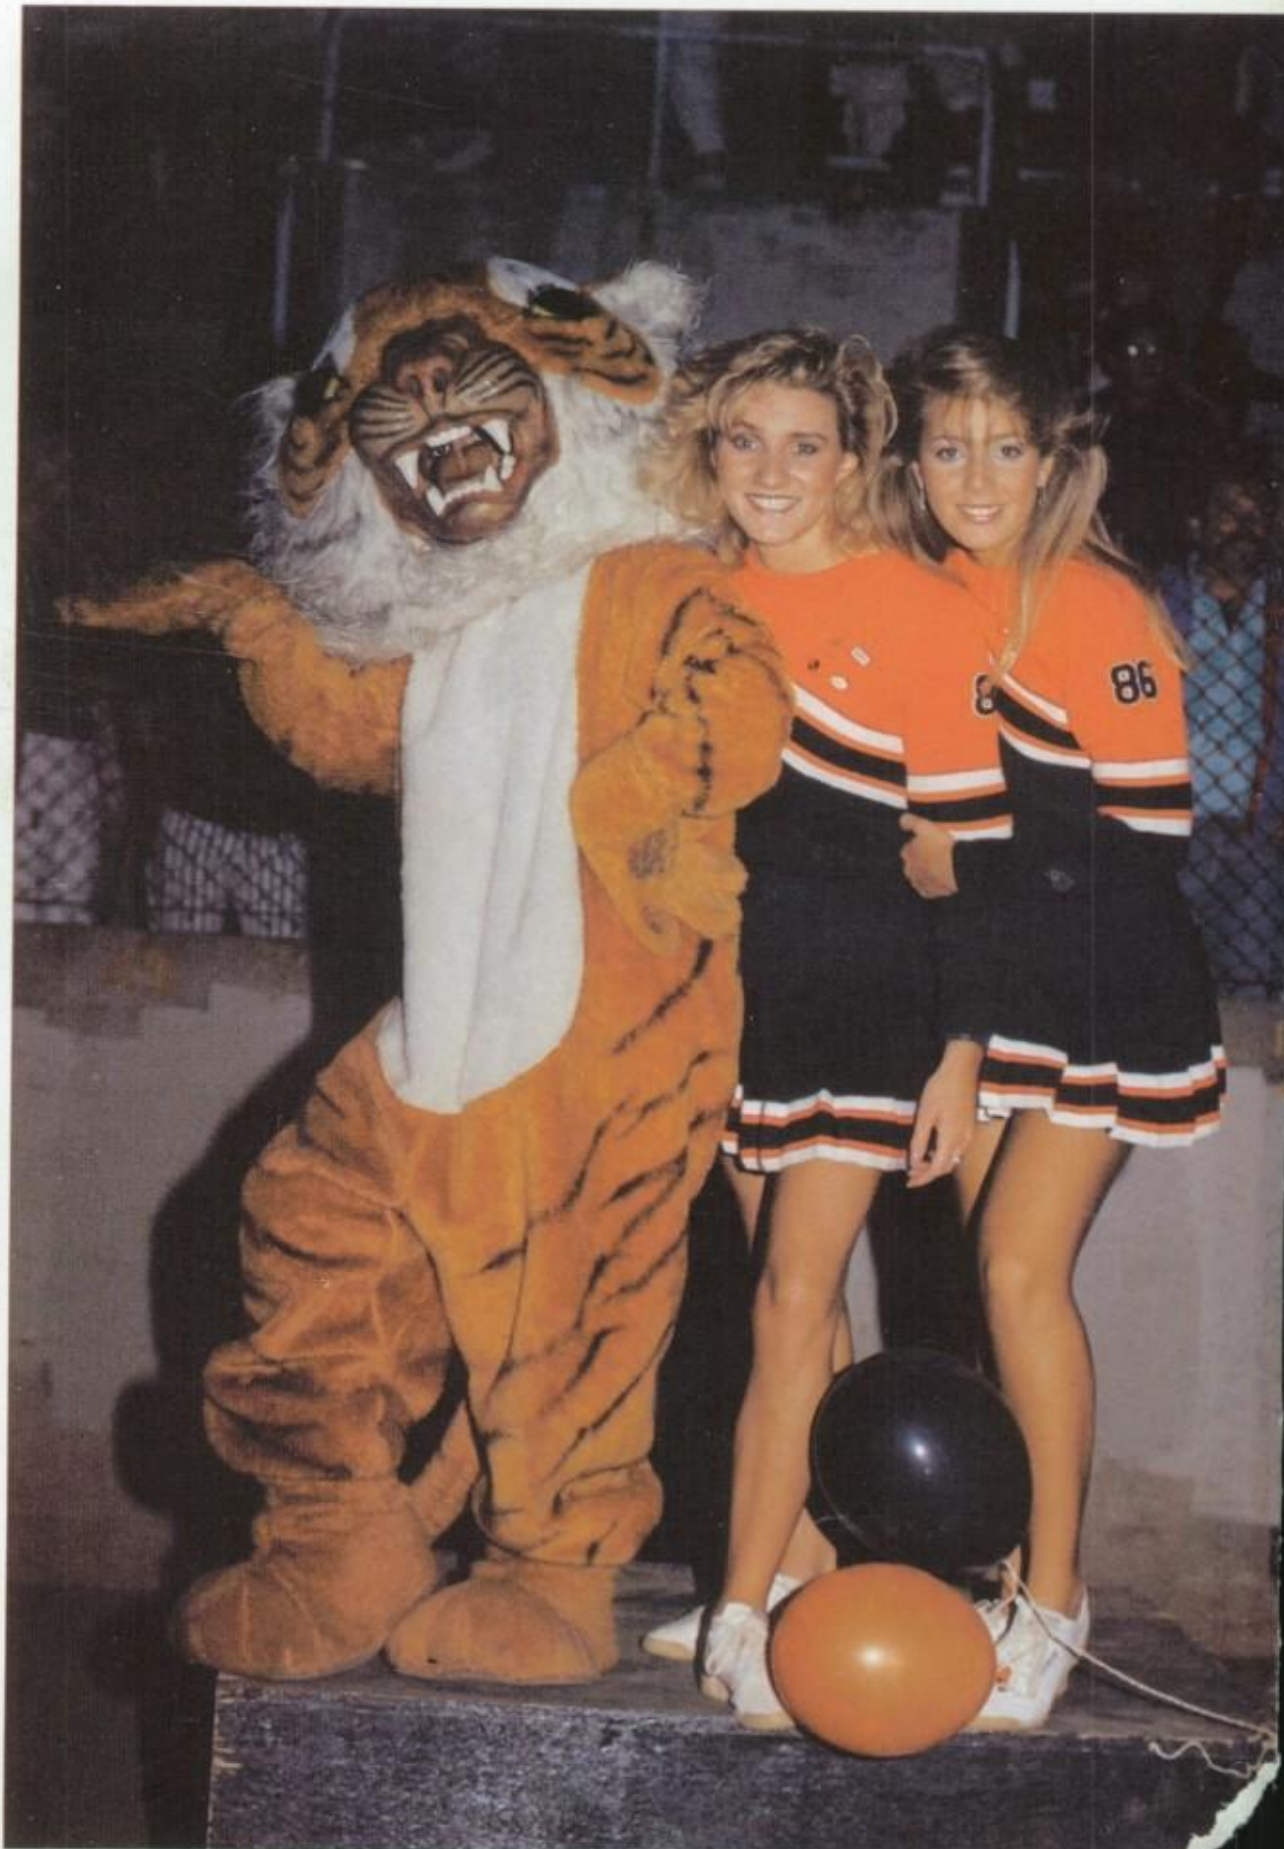

Though Chaffey's 75 years were successful, we
had to consider the future and

Move to Improve

*We're on the Move to Improve! proclaims
Julius Ceasar?*

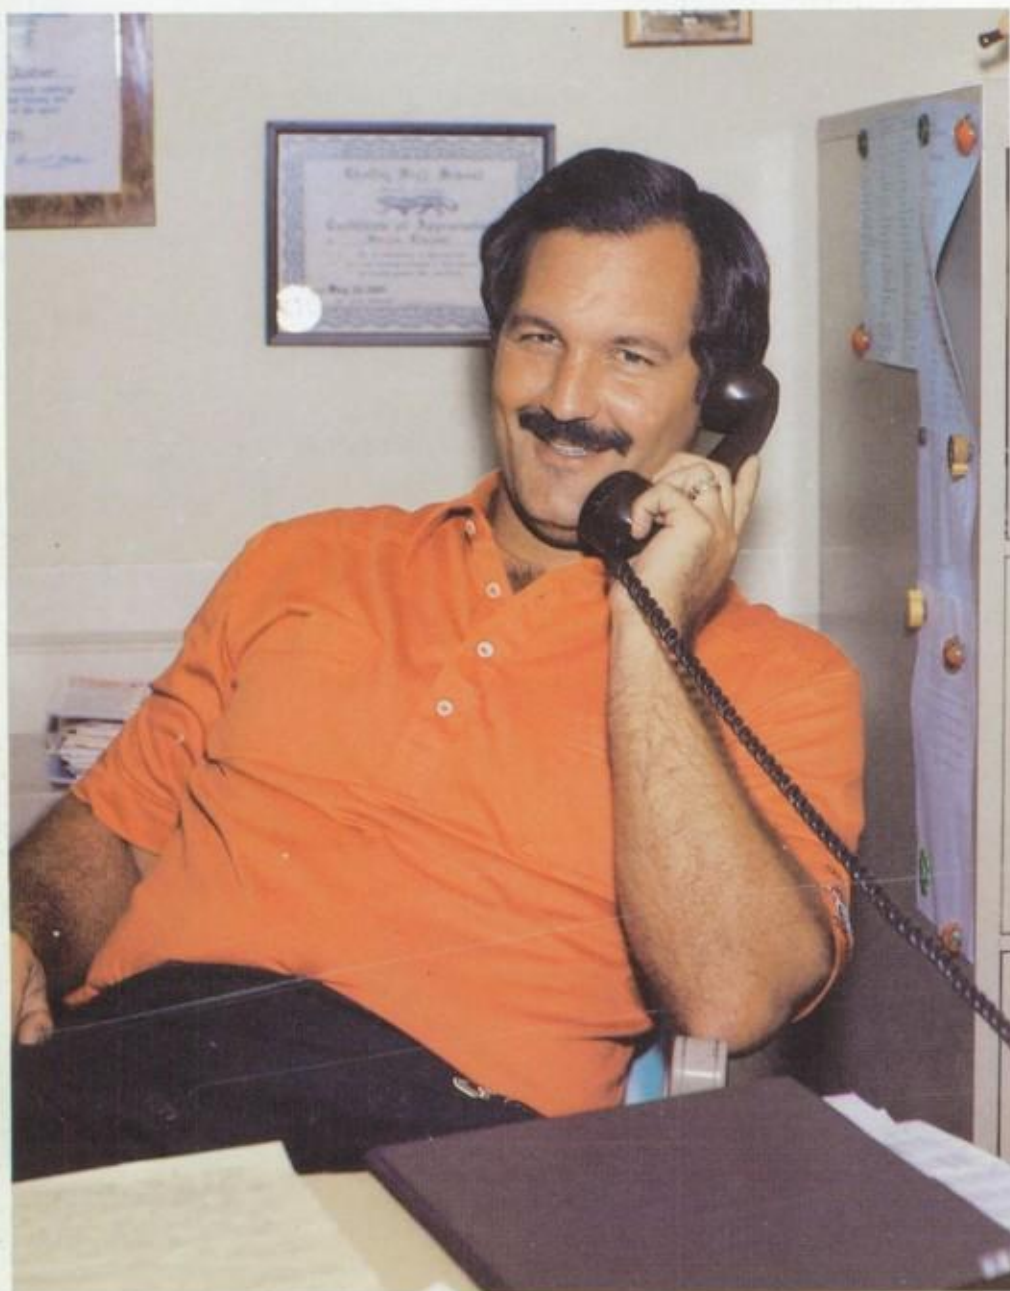

*The ferocious Chaffey Tiger always leaves his
enduring mark.*

*Overwhelmed by the mass hysteria of the crowd, Dana Jenkins and Lisa Felix cling to the
aback.*

As he takes some time out of his day for a friendly chat, Coach Killer keeps General Telephone in business.

“T

here is always room for improvement,” stated **Margaret Bouch**. In contrast, the attitude of some people was that since Chaffey was a traditional school it was well established and little could be done to improve it. However, our principal, the dynamic **Dr. Stine** disagreed, stating his goals as “We’re on the move to improve!” And improve we did!

There were various alterations that went on throughout the year. One of the most important improvements was the focus on academics. Through the academic letter, recognition was given to the students who maintained a 3.5 GPA, or above.

The re-painting of the Gardiner Spring Auditorium was also a change for Chaffey. To be exact, it took 800 gallons of paint to embellish it. And after seventy five years, this new look was welcome.

The refurbishing of the South Gym floor provided another facelift for Chaffey. It was last refinished in 1960 when it was first put in the gym.

Some improvements in the athletic department included a new Varsity Football coach. **Glenn Killingsworth**, not only brought with him new uniforms, but new hopes for the Varsity Football team. Another improvement in the Athletic Department was the rebirth of the wrestling team. Chaffey last had a wrestling team in 1980. The man in charge of training the team was **Ralph Bakkas**, who had been teaching at Chaffey for one year. When asked why he wanted the position as wrestling coach, **Bakkas** responded “Being the new kid on the block I wanted to rebuild and develop a new team spirit.”

The various individuals who continually focused on improvement comprised one aspect of “THE MANY FACETS OF THE STONE.” ♦

The G.W.S., first built in 1939, displays its new look on the Chaffey campus.

Like the "Many Facets of the Stone," we all come together and form . . .

A Spectrum of People

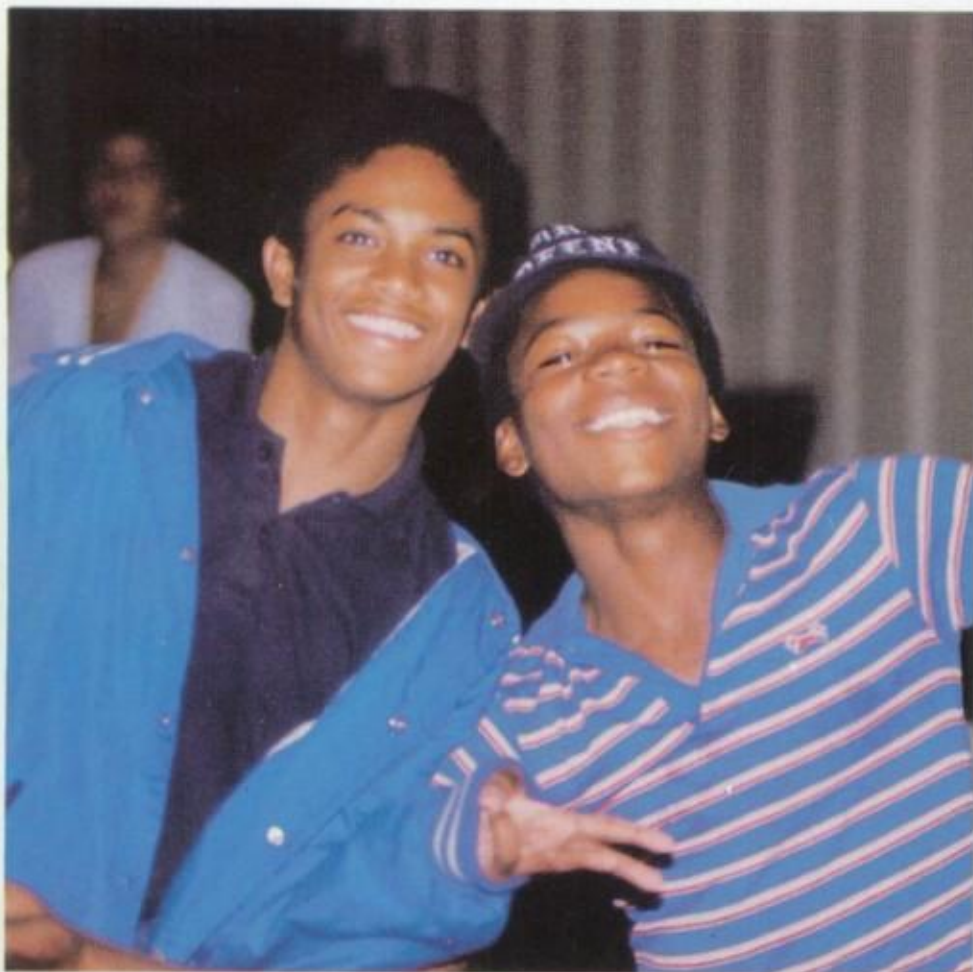

With the many different kinds of people at Chaffey, unity was still clearly visible.

Chaffey had a sizable amount of ethnic backgrounds, each reflecting its own unique personality.

The divergence of people coming together had been evident in the past. Despite unique differences, students tried to maintain unity while learning about and enhancing cultural differences through clubs such as **MECHA** and **BSU**, (**Black Students Union**), and the Intercultural Club. These organizations tried to advance better relations between blacks, Chicanos and the various groups at Chaffey.

Sophie Smith, graduating Senior stated, "I have felt very accepted throughout my years at Chaffey for the person I am."

Regardless of race, color or creed, at Chaffey we were all individuals joined together by the simple fact that at heart, we were all **TIGERS!** ♦

All smiles! William Bradley and Marlin Greene show that a strong friendship can really brighten your day.

Paula Thompson, Chevan Wallace, Staci Heairet and Kim Hatton make a picture perfect.

Aren't we rushing it a bit? Are the sophomore Tri Lams ready for the real college fraternity?

Susie Limas reckons, "Hey, I've got him wrapped around my finger!" John Oliva doesn't seem to object.

"Despite our individuality, we're all tigers in our own way," explains our mascot.

Friendly Dan Parris displays his skills in public relations.

As the festivities begin, Chaffey
practices what it does best . . .
An occasion to

Celebrate!

“W

hen it comes to celebration, there is an aura about Chaffey that catches everyone's spirit. In our rallies and especially Greek Week, each class pulled for itself, but when it comes right down to it, everyone is a tiger — that's contagious! And now, in our 75th year, this spirit was especially noticeable. We partied more than ever!”

Chaffey High School Class of 1986
1245 North Euclid Avenue
Ontario, CA 91762

Dear Graduates:

It is an honor for me to join the many parents, teachers, and friends of the Chaffey High School graduating class of 1986 in extending my heartfelt congratulations and best wishes.

These are exciting times for our youth and our nation. You 1986 graduates will face challenges my generation didn't even dream about. Just look at the advances in technology and our computerized society. You will be called upon to face the problems and issues created by an accelerated growth in our Inland Empire and meet the demands of a rapidly changing world.

I also wish to take this opportunity to extend my congratulations to Chaffey High School upon the celebration of its 75th Anniversary. Chaffey can be proud of the accomplishments of its alumni. I am certain the school will continue to enjoy even greater success as we near the 21st century.

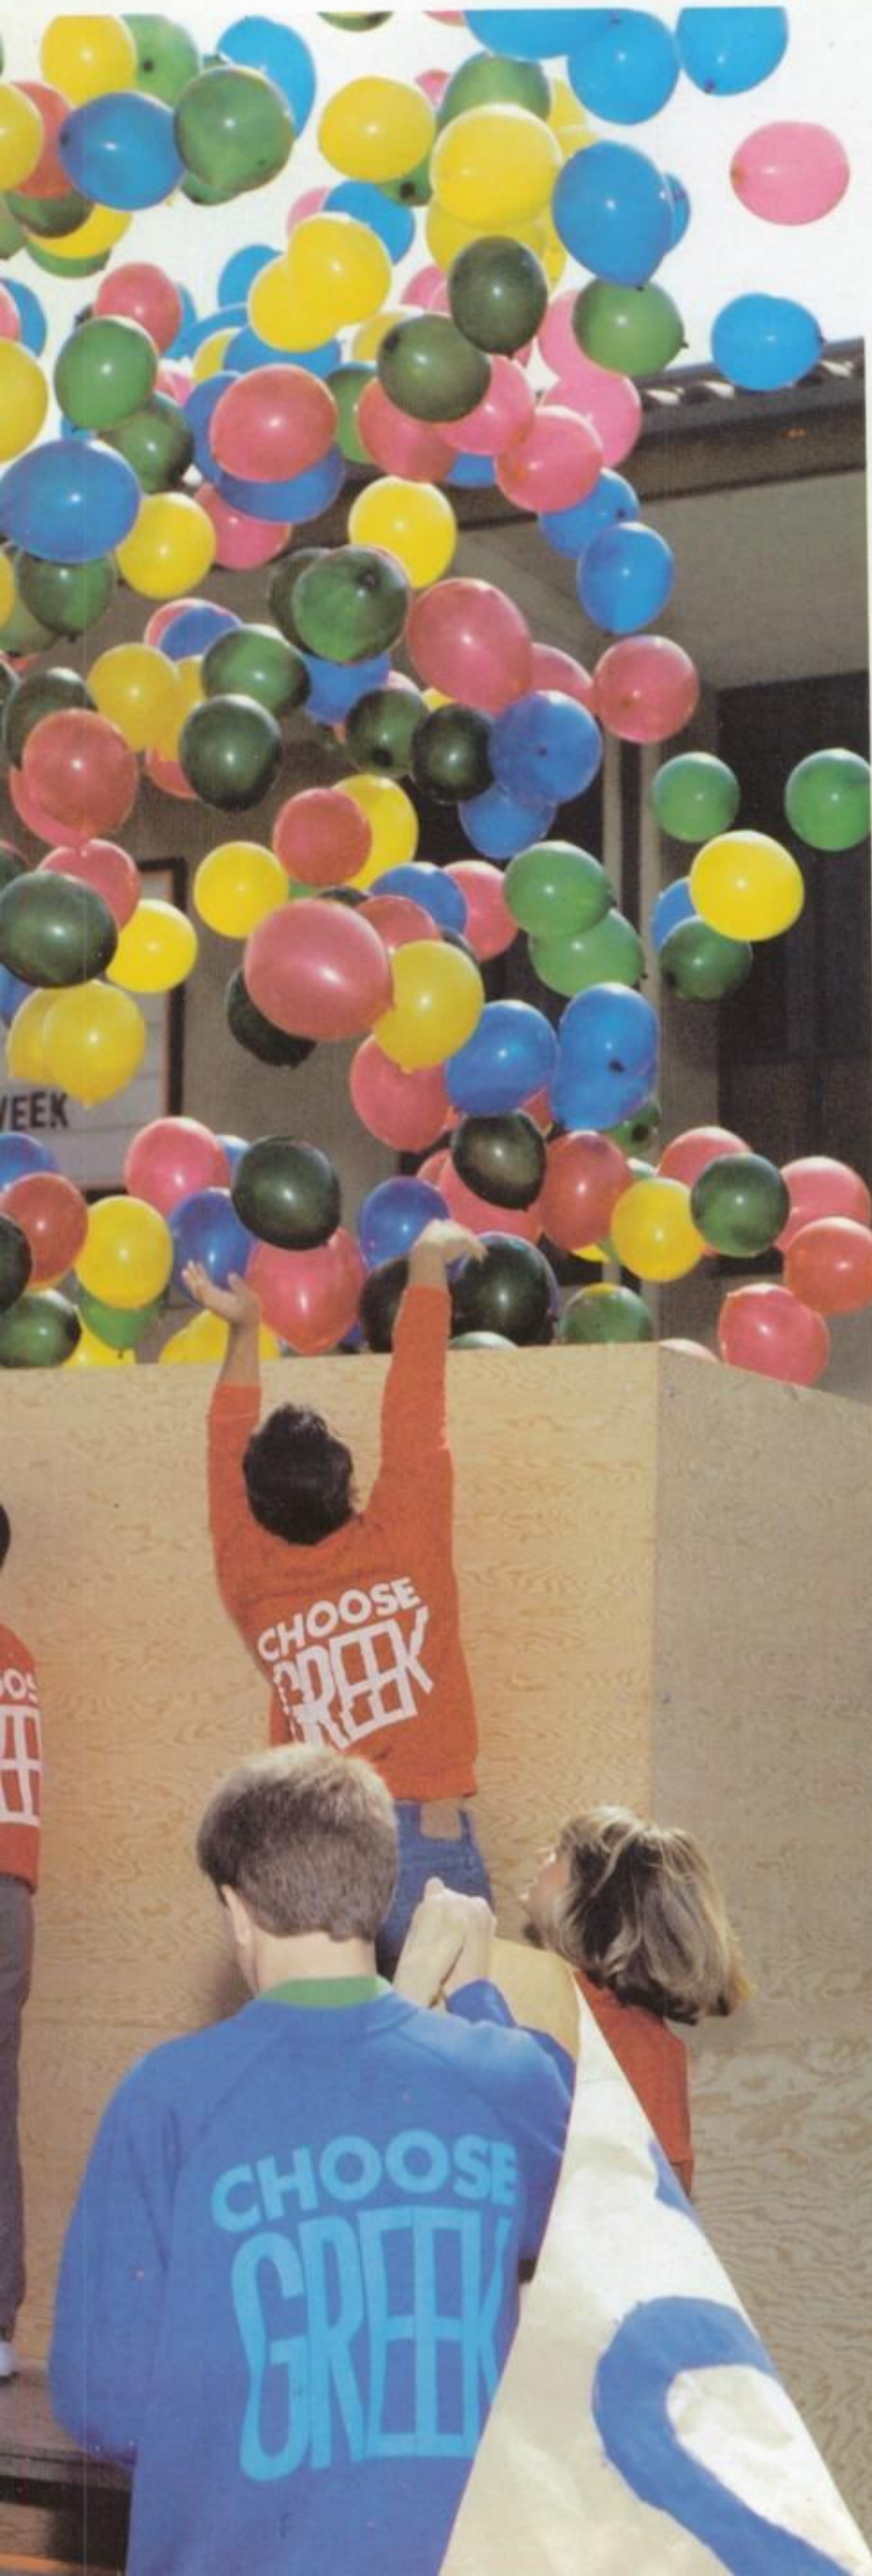

Again, my sincere best wishes to each of you in all of your future endeavors.

Sincerely,

Graduating Class of 1986
Chaffey High School
1245 North Euclid
Ontario, CA 91762

Dear Graduates:

Congratulations to each one of you. The Class of 1986 is very special because it is the 75th senior class to graduate from Chaffey High School. Traditionally, a 75th anniversary is celebrated with diamonds.

Your graduation ceremony will really be the start of a year-long celebration for the Chaffey Joint Union High School District, and Chaffey High School. It will be called a Diamond Jubilee, and you are especially honored.

The first senior class in 1911-12 numbered about 50. Yours is almost 500 strong. The first graduates were determined and proud of their accomplishments. I'm sure you are equally so.

It is now your opportunity to join the hundreds of successful graduates of Chaffey High School. Set your goals high and pursue their attainment with unswerving zeal. Dreams can come true! It's just up to you.

Please accept my very best wishes for a wonderful future.

Most sincerely,

Mike D. Dirksen

Some like it hot! Senior Steve Watson lights the torch to symbolize the beginning of spirit week.

As students take pride in their appearance and possessions, it was obvious that

C lass Is Back

Sorry Madonna! As lace and neon slowly disappeared from the campus, a new style became apparent. As angoras and silks, pearls and tapestries made their comebacks, it was obvious that pride and class were becoming the trend. According to **Margaret Bouch**, "It's neat to see kids dressing up. They take more pride in how they look, and feel better about themselves."

Not only were students taking pride in their dress, likewise the appearance of their possessions became important. Senior **Koleen Gray** stated, "It isn't that hard to keep a car up, and being proud of what you drive is worth the work." Sparkling chrome and flawless paint jobs abounded in the parking lot, as lowered mini-trucks and bugs slowed to a crawl over those infamous speed bumps. Explained **Mike Fryer**, member of **New Approach Mini-Truck Club**, "We take a lot of work getting our trucks how we want them. It takes a lot of time and care to keep them that way."

As class became the fashion, the campus sparkled with a new sense of confidence. This attitude was invaluable in creating the mood for the 75th year of a many-faceted school. ♦

A Special Insight

Look at those legs! Mr. Perri shows that he has interests outside the classroom.

His 28 years of dedicated service have been invaluable to Chaffey High School.

Majoring in history, he received his bachelor's degree in 1956, and master's degree in 1961, both from the University of Redlands. Hired by the Chaffey District on September 4, 1957 as an English teacher, he was reassigned to the history department in 1965 where he now serves as department chairman.

His knowledge of history, obvious in lectures and discussions, was matched only by his knowledge of the student as a human being. He continually acknowledged the need to express points of view, and attempted to create an atmosphere of acceptance. His care reached beyond the classroom setting, as he encouraged students to form distinct personalities and outlooks. He created a balance by maintaining high standards, yet remaining flexible when the situation warranted.

It is with sincerity that we thank him for his understanding of students needs — both academically and socially. The Fasti staff graciously dedicates the 1986, 75th anniversary edition to: ♦

Court, a Moment to Remember

Lisa Wagner smiles at the crowd while brother Tim looks a little nervous.

The Homecoming Court was once again made up of five candidates that represented the many facets of Chaffey.

The Court which consisted of **Lisa Felix**, **Christi Garratt**, **Louise Montoya**, **Kari Pederson**, and **Lisa Wagner**, were put through wrestling matches, an obstacle course, and a kidnapping.

The excitement mounted at the football half-time when **Louise Montoya** was crowned as the 1985-86 Homecoming Queen.

Christi Garratt summed up all of the candidates feelings by saying, "Being on court will be an experience I will always remember."

"What am I doing here?" asks Lisa Felix.

This Mason is hoping for a little kiss from Christi Garratt.

In the fall of '82 the Seniors set out to conquer Chaffey. The task began with an overcrowding of classrooms due to the future Etiwanda students who shared the campus, and an undefeated Freshman football team. Many friends were made along the way, and in the middle of the Sophomore year as **Lee Han Rogers** put it, "It was sad to see them leave to their new campus."

Although the class of '86 shrunk in size, it's spirit began to soar! By winning the spirit trophy, it was easy to see that they had just begun. The class of '86 continued winning the spirit trophy it's Junior and Senior year. As Juniors they ruled the Boiler Room and formed the absolute source of spirit, "The Dawn Patrol."

As Seniors, they played an important role in getting more money for Chaffey by participating in the CAP tests. **Dr. Stine** related, "The spirit of the future is with the class of '86. Their optimism and positive outlook on life has made them a class to remember."

In June, the class of '86 left Chaffey's campus with the pride of being the 75th graduating class, and a spirit that will endure forever.

Early Departure

There were eighteen seniors who decided that graduating mid-term was the thing to do. Those seniors had to work a lot harder at accomplishing their goal but in the end, they did it.

Many advantages and disadvantages existed. Those who graduated mid-term had many advantageous reasons for doing so. **Pam Morris** felt, "Since I had already finished taking all my classes, I wanted to take something more challenging and begin college." This was one of the main reasons for wanting to graduate mid-term. Other reasons were going on vacation for a few months, working full time, and "Getting a great tan," as **Stacy Yerkey** said.

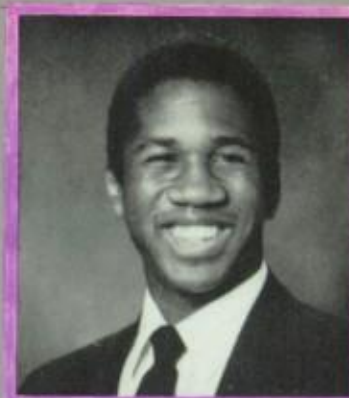

A few disadvantages also existed which varied from not being around friends everyday to facing more responsibility. "I want to be more independent," was **Kerri Young's** main reason. Even though they would miss their friends, they all wanted to get a headstart with their lives. With more responsibility, now eighteen or not, just the fact that you were out of school made the world look upon you as a mature adult. ♦

Friendships

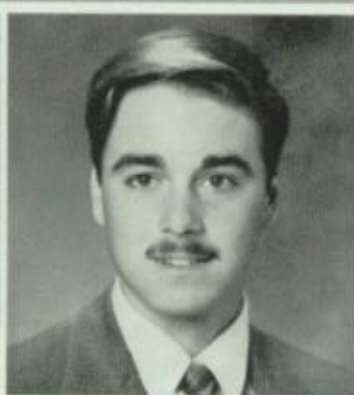

Encountering high school for the first time can be a whole new experience. In this case where there are over 2,500 students attending, one was bound to make new friends during the four year stay at Chaffey.

There were many ways to make friends on campus, such as clubs, attending football games and simply being a student. In fact, the easiest way was in classrooms. Regina DeSantiago commented, "In class one was practically forced to make friends, because out of thirty students, there were probably two from your junior high." ♦

Hangouts

There were many different types of people that flood Chaffey's campus every day at lunch and between classes. At these times, students broke from their classes and on to their favorite locations on campus.

For some, North Quad provided the quiet place that made lunch with a boyfriend or girlfriend enjoyable. For others, GWS looked like a leisurely spot, as students could be found on all sides.

However, for most it was South Quad. Whether they were sitting on the large concrete planters south of the boiler room, or the smaller ones around the rest of the quad, South Quad proved to be the most popular environment.

Other hangouts included the old locker complex, where heavy metal music hung in the air, and the word "nark" could be heard screamed every day. Still others were found inside the cafeteria, and occasionally in the Fourth Street parking lot running from proctors.

On the South Quad, **Philip Watson** related, "It is a dubious place to hang."

Henry Ricci's opinion of the North Quad was, "It's part of the campus, but it's definitely not a place that I'd like to be."

Through our different hangouts was just another way one could gaze around Chaffey's campus and view the many facets of the stone. ♦

Card Fever

There wasn't anything on campus that brought the students together more than the OINGO BOINGO KIIS F.M. High School Spirit Contest. The object was to sent the most cards in and win a free concert by OINGO BINGO. Students were recruited to sign thousands of postcards in hopes of seeing the free concert. The project was kicked off and practically run by the formidable **Tuffer Mayeda**, who nonchalantly asked, "What's the big deal?"

And just to make the contest more of a challenge to the students, it was turned into a class competition with one point received for every ten cards turned in by each class. This idea was the brain child of **Michele Stark** who just happened to be the President of the winning Senior class. The Seniors won the competition by turning in over 5,000 post cards. This had to be the most deserving victory of the year.

Yet the road to victory was not paved in gold, there were some classroom disruptions. One teacher, **Mr. John Hocking** went noted, "I guess there's no way to get you to stop, so I'll go along, on one condition, — To fill out one card, you have to answer at least one question. No answer, no card signing." ♦

Silently we walk the path,

Even as we sit and watch,

Never shall we know again,
the feelings that,
here must end, and

Idly, there among our friends
the mind will go astray,
and drift back to days gone by,
to think of yesterday.

Openly we shed the tears,
that helped us grow,
throughout the years.

Remembering all the hopes

so silly did seem

So many things,

Unexpected Glory

The Department Awards allowed the chairperson of each department to give recognition to the outstanding students in each subject area.

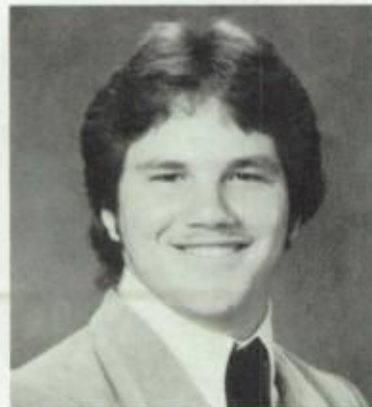

The awards were given to them unexpectedly at the senior awards assembly. Those that received them did not usually work towards winning anything. They just happened to be high achievers in their subject, and have excelled exceptionally over the years.

"Math and Science are so important to me because I don't feel comfortable with ny other subject. Math comes easy for me, and I could never see myself as an English or History major," said Preston Burdwell, who demonstrated surprise upon winning an award.

Students received awards in English, Social Studies, Math, Science, Performing Arts, Industrial Education, Physical Education, Business, Foreign Language, Special Ed., and LHS. The Department Chairman was limited to choosing four students from these many departments, yet there were many exceptional students to choose from. ♦

On the Road to Fame

Are these students on the road to fame? Well, "fame" isn't really what many of them have in mind. When a student is recognized for FAME, he is being honored for following an area of major emphasis. A FAME student specialized in classes from a certain department, passing at least thirty units with C grades or better, throughout the course of four years.

Art, Business, Foreign Language, Home Economics, Industrial, Performing Arts and Science are the departments from which students take classes that will help them in future careers. The FAME program guided them through whatever area they wished to "follow." With extra guidance, students may have some more direction towards their goals.

FAME is not a means of competition. Rather, each student is given a certificate, recognition at the Senior award assembly and in the Fasti, as well as a designation on his transcript.

Rachel Vallejo felt that FAME was important to her because, "It'll help me with my goal to be an X-Ray technician." She was awarded by the Science department. Likewise, **Ashley Confer** had her career in mind when she participated in the FAME Foreign Language program. "I've always been interested in foreign languages that will apply to my ambitions of being an airline stewardess," she elaborated.

Students not only felt FAME would help them in the future. Many were just glad to receive recognition. "I've worked hard over the past four years and I think I should get something for all my hard work," stated **Chris Owens**, who majored in Industrial Arts for his drafting talents.

Of course, students were not restricted to only one area. There were no limitations. If Chaffey students wished to pursue those academic subjects that interest them, they were encouraged to do so by the FAME program. After Chaffey, they were free to go as far as they could, whether it included actual "fame" or not. ♦

Boy and Girl of the Year

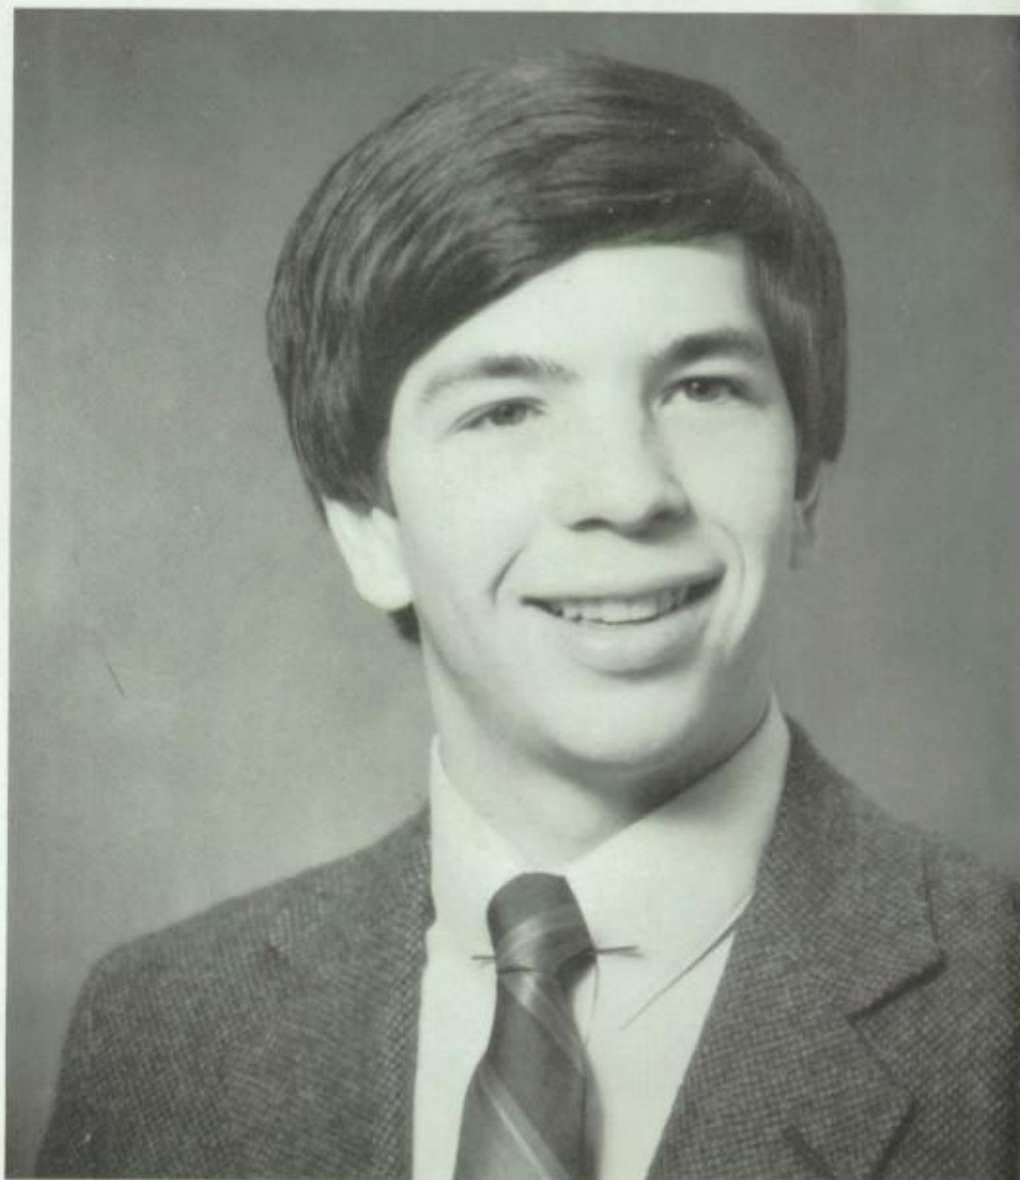

From a field of twenty candidates, the **Boy and Girl of the Year** were selected by a committee of three members of the faculty and two students representing Chaffey Service League. The applicants were judged on their contributions to community service projects, special school awards, and school activities and offices held during their high school careers.

As **Girl of the Year**, **Tina Arretche**, has been active in many activities during her four years at Chaffey. During her Freshmen and Sophomore years Tina was a member of Marching Band, Concert Band, JV Basketball, JV Softball, and the school club the Bandettes. As a Junior Tina continued membership in Marching and Concert Band, lettered in Varsity Basketball, and found time to join student government as a member of Executive Council. In her Senior year the additional responsibilities of ASB Vice-President and a yearbook staff member kept Tina busy while maintaining an over-all GPA of 3.7.

As **Boy of the Year**, **David Sparks**, was chosen because of his commitment to the activities and academic programs. David served as Top Sergeant of the Marching Band for the past two years. In addition to the Marching Band, David acted as leader of the Pep Band, performing at Pep Rallies and half-time at the basketball games. This participation in the band allowed David to be recognized as one of the four top saxophonists in the State of California. With this musical ability he was asked to advise the play production class helping choose music for the productions. Besides maintaining a 3.7 GPA, David found time to tour the local retirement houses playing music for their enjoyment. Both Tina and David were examples of outstanding intellectual ability and a commitment to service as members of the Class of 1986. ♦

Hard Work Shines Through

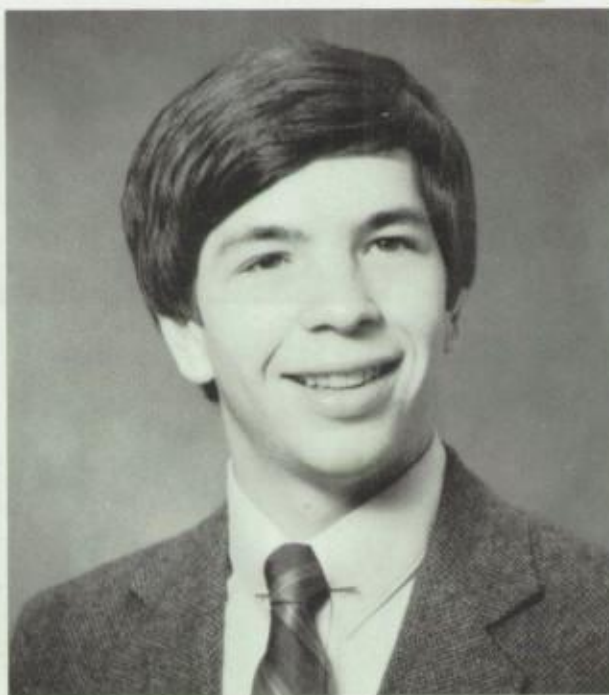

We're all very excited about the establishment of a Valedictorian and Salutatorian at Chaffey High School for 1986. It is this type of positive recognition which will encourage others to a high level of achievement," replied **Dr. David Stine** about this momentous occasion. The Valedictorian and Salutatorian, who were selected on the basis of high grade point average, will be the first ever in the history of Chaffey High School. Valedictorian, **Raymond Sagui** commented, "It's really an honor, but I have to remember that at the Air Force Academy, I'll be just another student." **James Gilliam**, Salutatorian, added "It's nice to know

that four years of hard work finally paid off!"

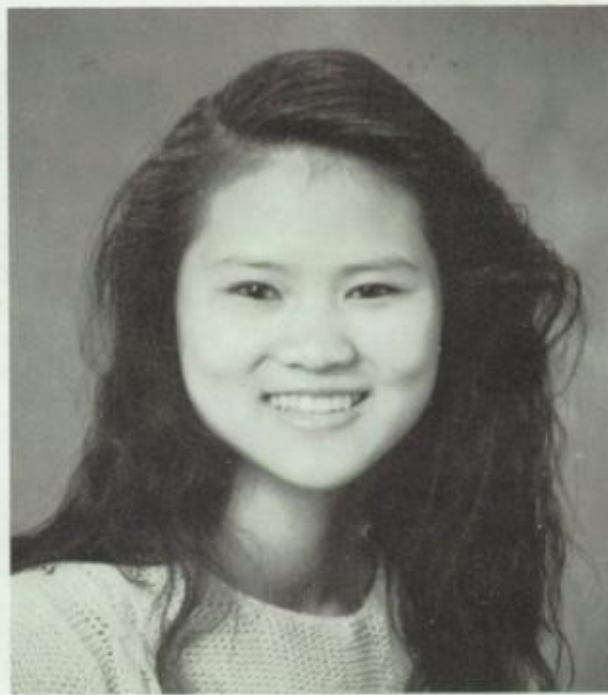

Also part of the graduation activities included the selection of the three Baccalaureate speakers and one Commencement speaker. To be chosen, each speaker was to prepare a speech and be prepared to deliver it to the selection committee. "Although it was scary to try out, it was all worth it!," said **Christy Babcock**. The decision was not easy to make from the eight people who tried out. "It's a great honor to be able to represent the Senior class at such an important event," concluded **Marni Harris**. ♦

Juniors Get the Rough Edge

The class of 1987 not only became an upper class, but also had to carry the responsibility of an increase in requirements for graduation. A total of twenty additional required credits was given to the class of '87 compared to those credits required of this year's seniors. When asked how they felt about the increase of required credits, these students replied:

Greg Gutierrez — "I don't mind because I'm ahead in credits." **Deirdre Cole** — "I think it's good that they are increasing our requirements because it gives us a better education."

Hopefully these new requirements will benefit students in their high school education and influence them to try harder in school. ♦

Lunch Lines

It seems like every year the lunch lines are getting longer and longer. By the time one gets to the window, either there was not what we wanted or the bell was about to ring. **Deanna Schryver** stated, "You quickly learn how to shrink and slip between larger students to the front of the line." ♦

The Big "L"

In October, the state of California began selling lottery tickets. The profits benefited the schools of our state, and also a few of our students. Fifteen year old **Scott Rudmann** was one of those few who became a lucky winner of \$5,000.00.

Scott spent his money on a stereo, a disk drive and he shared his wealth with his mother by giving her \$500.00. After all, if it wasn't for her buying the ticket, he never would've won. ♦

The Highlights

ACTIVITIES

— Reviving Traditions of Spirit —

The 1985-86 Executive Council, advised by **Gary Simpson**, not only worked hard running the ASB and renewing school spirit, but devised a program to improve student and faculty relationships as well. The Happy Birthday Balloons, "was a clever way for students to express their appreciation for teachers," replied **Dan Parris**. Amazed by the bouquet of balloons **Mrs. Kistner** replied, "Thanks for making my birthday so special, and thanks for making Chaffey a very special school." Special things like this, are only part of what Executive Council does to make Chaffey so unique. ♦

"Do you believe we're actually doing this?" asks Christi Garratt to Caryn Posey, as Paula Thompson looks on in disbelief.

ASB Officers — Tom Foster, Tina Arretche, Mike Quinn, Kristie Miranda, Paula Thompson, Lea Moncrief.

Executive Council and Activities Board

Planning rallies, dances, and half-time events, The Activities Board led the way to a very exciting and successful year. Not only did they help to promote such vibrant school spirit, expressed in competitive rallies, but they planned many new ideas and interesting events as well. **Lisa Bullen** exclaimed, "We have not only passed on another exciting year of spirit, but the class of '86 has passed on its vigor, reviving the old traditions of spirit." ♦

◀ **ASB Officers** — Louise Montoya, Kristine Mendiola, Traci Wiley, Michelle Cummins, Tuffer Mayeda, Beth Green, Lareen Massey, John Gravener.

Hard Work Plié's Off

A plié, a pivot, and a leap into a challenge of hard work and self-discipline are what the modern dancers did to make up for **Mrs. Fulton's** leave of absence. Practicing everyday 5th and 6th period, it took the dancers not only a combination of talent and hard work, but they had to pull together as best as they could. While **Mrs. Fulton** was out, **Shannon Brennan** proved to be an excellent leader by helping to run the dance class. **Shannon** confessed, "The girls really worked hard. By showing me respect and giving me the attention I needed, we pulled together and made it possible to put on the Holiday Fling." ♦

Determination and the love for dance is what **James Harling** exhibits as the only male dancer in Modern Dance.

An uplifting experience is what Kelly Walker, Louise Montoya, and Veronica Martin seem to be feeling.

"Oh what a feeling!" exclaims Renee Whited to Cecelia Correa as they display their tremendous talent.

A Memorable Mentor

"All kids definitely have talent." These are the words of an inspiring hard-working teacher, **Carl Walters**. Singing and playing instruments were two of the talents he encouraged, bringing out the best in his students. Mixed chorus, a beginning but prominent group, Festival Choir, an advanced group, and the String Orchestras

were all involved in various activities throughout the year. Some performed at restaurants, churches, and even at Knotts Berry Farm and the Holiday Fling. Although **Mr. Walter's** 18th year of teaching at the Chaffey District came to an end in January, his students will always remember the effort and dedication he gave them: ♦

Chris VanDuin

Is that Manuel Ramirez behind those Vuarnets?

"I don't know, Brian. I think teen Magazine would take us."

I told him I didn't need a "sissy-back" comments Jay Agapay.

King for a Day

"Am I having fun yet?" grins Rodney Small.

Gimme respect, demands Brian Shaub.

1985 King, **Dan Christian** rolled up in a shopping cart and danced a little jig. Then proceeded to crown the 1986 Backwards King, **Manuel Ramirez**.

Manuel participated in many sports and activities, four years in Baseball two on varsity, three years in Football two on varsity, Intercultural Club, Mecha, CSF, Letterman's Club. He was the Santa Claus at the Christmas Party for the children. "It was nice to know that so many people cared enough to support me," concluded **Manuel** after he was a announced king.

The selection of the king seemed to please everyone. The organization of the entire Backwards Week was filled with a lot of spirit and a ton of enthusiasm. And for one person, it is a memory that will last a lifetime. ♦

Manuel Ramirez — KING FOR A DAY.

"**I** had a great time. Once you make court, winning king isn't important; it is just fun being there," commented **Chris Van Duin**. This seemed to be the same attitude of the other candidates, **Jay Agapay**, **Manuel Ramirez**, **Brian Shaub** and **Rodney Small**. The traditional Backwards Week started March 4th with the king parade, the lunch competition and the rally. "Performing in the rally let us show our other personality that the students usually don't see," expressed **Jay**. **Rodney** also commented, "the most fun I had was playing Danny Zuko from Grease in the rally. It was 'electrifying'."

The crowning took place March 7th under the dramatic lights on Graber Field. **Brian** stated, "I think it was great having our moms escort us because it was something that most mothers and sons don't get to experience. It brought us a lot closer." With the enthusiastic effect of the

"Well guys, it was a nice day for a sundae."

Looking for a baby to kiss is Rodney Small.

My theory is, the more buttons undone the more votes I get.

Sharing his victory with his adoring fans is Manuel Ramirez.

A Puff of Pink Powder

"We'll make a meal out of you, Juniors!" roars these members of the Senior Powder Puff team.

"**H**ut 1, Hut 2, Hike." These aren't the echos of a group of rough guys playing football. Actually it's the 2nd annual Powder Puff game. **Marni Harris** and **Michele Stark** replied, "It's just another opportunity for upperclassmen to show off their spirit and have some fun." With a switch of roles, "girls have a chance to prove that they can be just as aggressive as guys," stated **Denise Martinez**. Even **Shane McClure** confessed, "I like to watch the girls get mean and go all out." To make the game more complete, guys were given the chance to become cheerleaders as well. **Mike Gentry** cried, "I can't wait to show off my cheerleading abilities!" Even **Maria Soliz** was excited at that idea. "I'm going to love seeing those hairy legs in cheerleading skirts," she replied.

Powder Puff became a whole new event this year with the combination of Backwards week. The female football players and male cheerleaders got to perform at the rally and the Backwards King was even crowned during the Powder Puff half-time. With the Junior's victory of 21 to 12, the game still proved to be an exciting and unforgettable one. ♦

"You can look, but you can't touch," teases Mike Quinn and Shane McClure. ▲ After triumphantly pulling a flag, Bridgette Ealy proudly struts off the field.

Front Row: Brandt Ridderbusch, Steve Edwards, Jenny Fuller, Mark Ashby. **Second Row:** Shannon Varner, Paula Westmorland, Sandy Blackwood, Cathy Pope, Seval Ekerman, Denise Foltz, Lisa Felix. **Back Row:** Deanna Schryver, Eric Paulson, Heidi Bailey, David Sparks.

Playing in "The Sandbox" is Paula Westmorland.

Upsetting expressions dominate this scene in "Boggains in the Bronx."

"The Widow's Plight" is filled with a diverse group of characters.

"Unicorn in the Garden" is the title of this enchanting play by Jenny Fuller, Mark Ashby, Allie Bennett, and David Sparks.

Flights of Fancy

Fifth period play production was made up of actors and actresses with a desire to entertain. They practiced hard learning their lines and acting out their parts just right. **Mr. Palmer's** patient encouragement was a big part of their success.

The plays were entitled, "Flights of Fancy." There were six plays in all. Over fifteen students were involved. The job of Assistant Director was given to **Shannon Varner**.

Chaffey students looked forward to watching these talented young actors and actresses perform the plays. "I love acting," declared **Mark Ashby**, "and I plan on continuing in that direction." These actors and actresses were completely devoted to their roles! ♦

Sitting Pretty in their family portrait are Cathy Pope, Carolyn Pope, Frank Caron, Lisa Felix, and Downs Deering.

That anger is displayed by Mark Ashby and Paula Westmorland in "The Applicant."

Questionable is how David Sparks feels toward Deanna Schryver in the play "Death Knocks."

In the middle of it all, Steve Sandoval looks around in disbelief.

When the day of the BSU assembly had finally arrived, and the dances, songs, and speeches were learned, some of those taking part in the assembly marveled at being able to make the deadline once more. **Mr. Dennis Ruiz**, Intercultural activities coordinator, confided, "I just closed my eyes and prayed." The effort put into the assembly and the outcome of it was characteristic of all the other intercultural activities that took place throughout the school year.

Each activity was composed of positive things. The BSU assembly, for example, was an opportunity to appreciate the talent of our fellow students. The BSU and Cinco de Mayo queen competitions gave several outgoing girls the chance to represent their cultural group while involved in friendly competition. **Olga Herrera**, Cinco de Mayo queen candidate stated, "I saw it as a way of showing pride in being a Hispanic." When reflecting about intercultural activities at Chaffey throughout the years, **Mr. Ruiz** said that he could see a bridge being formed between students of different groups.

The intercultural activities made yet another important, interesting, and entertaining aspect of a Chaffey school year. And as **Bridgett Harris**, BSU Assembly "mistress of ceremonies" reminded, "Remember, they're doing it for you." ♦

Cinco De Mayo and BSU Royalty

Everyone has dreams of being a king or queen and to represent something that you are very proud of. That's how it was for the people chosen to represent the 1986 Cinco de Mayo and B.S.U. Royalty. As **Olga Herrera** put it, "It felt good to be involved in an activity that displayed my Latin heritage." That seemed to be the way everyone else felt, too. "I was so glad to be able to represent B.S.U. because B.S.U. means a lot to me!" exclaimed **Felice Peaks**, B.S.U. Queen. **Jesse Galvez** added, "I was proud to carry the name of Cinco de Mayo King." And while pride had a lot to do with it, they also did it just to have fun. **LaSonja Jackson** explained, "It was so much fun running against my good friend Felice, and although I didn't win, I had fun in the running." **Joann Ochoa** felt, "I thought it would be fun to do it because I'm proud of my background." ♦

Raising Spirit

Pep squad was really involved. They enthusiastically supported all of the athletic teams no matter what. Pep squad did a lot to raise school spirit with incredible energy.

Being involved in pep squad was not always easy; it was a lot of hard work. "It took long hours of practice," remarked **Jennifer Tracy**, "but being involved in school activities made it worth it." Before making it on pep squad they had to attend a week of clinics. After trying out and finally making it on pep squad, they went to cheerleading camp in Santa Barbara.

What really seemed to leave a big impression were "kidnaps." This was when the pep squad would go to an athletes house early in the morning, get them out of bed, and take them to breakfast at someone's house. Everyone really seemed to enjoy this, especially the football players.

The pep squad did more than just cheer at athletic games. They raised spirit in everything they did. "Cohesiveness and willingness to work together is what makes a good pep squad," noted **Mrs. Jenny Hanley**, advisor. Pep squad sure had it. ♦

Junior, **Mark Vogel** felt class competition was "a fun way for the classes to compete in unusual events." Such events included the "Balloon Smash," "Coconut Stuff," and "Blow it all in Las Vegas."

The classes were awarded points for the place they came in during a competition, class decorations, the class yell, and other events during lunch. **Daria Smith**, Sophomore, enjoys "how the classes are so competitive and go all out for the rallies and spirit night."

At the end of the year the points were added up and the class that accumulated the most points was the "Class of the Year."

Steve Watson, Senior, added, "Class competition allows students to represent their class and it helps to liven up the school year to dress to the themes and participate in events." ♦

... the Heart of the School

To look at Chaffey from the outside, one could only see buildings and people, but looking from the inside, one could see people thriving with new ideas and an aspiration to get involved. There were so many ways in which everyone could do just that. Whether it was dancing on stage or gazing at the stars, people did get involved. Through the past seventy-five years, many clubs have been formed.

And although some have come and gone, clubs have still proven to be ... *the heart of the school.* ♦

When asked why she wanted to be involved with Aces, co-advisor **Kate Bradford** replied, "I have been playing golf for about twelve years and I enjoy the sport very much. When I came to work at CHS in 1983, I wanted to get involved with the golf team." President **Brian Shaub** commented "The club is a great way to be involved with school and have fun with my friends!" ♦

"It's been a long day!" sighs Rachel Vallejo to Ms. Yearwood.

There are a few clubs at school that were formed specifically to help people. **Peer Counseling** was one of those clubs. It was brought together so students could help other students on a one-to-one basis. To be in Peer Counseling, you must take a semester class, which is like a training course. **Karen Perez**, a student in the class, commented, "It's a great way to make new friends, but it's also a great way to learn about yourself!"

Once you pass the class, you can go on and become a Peer Counselor. The counselors help others by just being there for someone to talk to and maybe find some alternatives to problems they may have.

Peer Counselor **Beth Stone** remarked, "It makes me feel good to know that I was able to help my students."

The program was run by **Ms. Yearwood**, an English teacher on campus. The program grew so much and helped so many students since it was formed and it didn't look like they would slow down. ♦

The Key to Success

"Is the key to success selling food at a snack bar?" asks the Key Club.

The Key Club was a service organization made up of high school students and is sponsored by a local Kiwanis Club. The members joined the club to work and to have fun doing it. The Key Club did many community service projects including visiting the elderly and helping in the Special Olympics. They also ran the concession stand at CHS basketball games. **Mike Flores**, president of the Key Club, commented, "It builds character and a sense of being. It's a perfect opportunity for leadership." The club's motto was, "Caring — Our Way of Life." Through their work, the members of Key Club have learned that their organization was built around caring for others. And because of this, Key Club will continue to be an effective club on our campus. ♦

Unsung Heroes

Intercultural club was really involved. Many students who would have ordinarily not met, got a chance to become better acquainted. These students worked on increasing communication all over the campus. They were a mixed group. At the beginning everyone seemed different. Towards the end of the year, they were one group that was capable of working together and getting the job done.

Mrs. Gloria Garcia, one of the advisors, really believed that each one of these students had what it took to be a success in the future. These students saw good role model and became good role model for others.

Mr. Dennis Ruiz has worked with the guys in intercultural for a few years. More recently involved were **Mrs. Smith** and **Mrs. Garcia** with the girls.

Intercultural did a lot of great things for the community as well as for our campus. Their Christmas party was a great success. They raised over \$200 and spent it all for their party in which they invited anyone associated with Chaffey. **Mrs. Garcia's** English class students made beautiful ornaments for their Christmas tree. When their ornaments mysteriously disappeared the students saved the day and once again made ornaments.

These students had pride in their work and worked hard to accomplish what they set out to do. Intercultural was an active group that contributed a great deal to the school. ♦

Band and Drill Team

Band Council — Mark Irwin — Sophomore Rep., Tina Arretche — Senior Rep., David Sparks — President, Leslie Corey — Vice President, Manny Simas — Junior Rep., Jackie Freeman — Freshman Rep., **Not Pictured:** Samantha DeLavo — Secretary.

CHS band had a busy season. The 100 members have worked hard and did many performances. The biggest event of the year was Chaffey High School Tournament of Bands. This was the 24th annual event. During this tournament they hosted 30 different bands. "This year's Freshmen had a lot to do with the success of our band, although we could have done a lot better if we would have gotten an earlier start with our tournament show," commented **Tina Arretche**, the Senior Representative. Other than the tournament of Bands they performed in various other tournaments with other high schools and junior high schools.

David Sparks was the student band director. He was responsible for choosing the music that the band performed. David also rehearsed with the band. He remarked "Transition of band directors had been hard on the whole program. Nevertheless, the group has improved by leaps and bounds in the last and once again the band is on the rise."

Mr. Mazur was the director and worked very hard with his band members. "I feel that they have improved 300% since last year; attitude is fantastic, and they really want to improve," related **Mr. Mazur**.

All Chaffey students could be proud of its band members our band really lived up to our motto, "We're on the move to improve." ♦

The members of Drill Team, worked very hard to meet that goal. **Shonnette Williams** commented, "It was hard at first but as we got going it got easier and more interesting. All our hard work really paid off." Drill Team has competed with other high schools and marched with pride during half time at home football games.

Other than hard work the members learned new things and had fun being a part of Drill Team. **Shawndel Kendrick** commented, "This was my first year on Drill Team and it has been exciting and by the same token I learned a lot."

Performing Tigers Sparkle

The lights, the music, the dancing, and the laughing were all a part of a very cheerful 1985 Holiday Fling. The performing arts students each had a good performance to contribute to yet another Holiday Fling. The tradition of the Fling was characterized by an attitude of improvement by pulling together.

At times it was difficult for the students to pull together. obstacles and unexpected complications seemed to make it impossible to give a good performance for parents and fellow students on those approaching dates. **Leslie Corey**, a member of the Festival Choir and band, reflected, "It all turned out good because there was more participation this year." **Veronica Martin** and **Deanna Parisien** both agreed that "It was really neat the way the dance classes came together to create the dances for the Fling."

Mr. Nelson Palmer, general advisor for the Holiday Fling, had a very positive opinion of the outcome of it all, and of his play production students. "We enjoyed a significant improvement. The Play production students put a lot of energy into their "Rudolph" skit." This energy was rewarded by the enthusiastic reaction of both students and parents of a hilariously funny skit.

And so we had another Holiday Fling to thank a very large group of talented students for. There was another, smaller, group of people we had to thank and they were the stage crew, the pianist, and of course, all the directors. ♦

ACADEMICS

A Gleam of Intelligence

The Academic Decathlon was a competition between twenty-one high schools in San Bernardino County testing academic strength. The purposes of the Academic Decathlon were to encourage students to develop a greater respect for knowledge, to promote competition in academic areas of study and interest, to help in achieving intellectual growth and to encourage the public to become aware of outstanding programs in high schools.

The Chaffey Team included **Naomi Malaby, Mike Fuller, Barnet Hartston, Hannah Malaby, Mike Steen, Tony Conejo, Mary MacRill, Lee Han Rogers, Kymm Hoppie, Mike Flores,** and **George Thomas.** The team coach was English teacher **Mr. Lehman.** The competition consisted of six multiple choice tests, writing an essay, an interview, and a delivery of both a prepared and an impromptu speech. Chaffey placed eighth out of the twenty-one high schools, which was a great improvement from the year before. **Coach Lehman** commented, "It's a wonderful experience for these students and a fine chance for them to stretch their intellectual muscles." ♦

Taking the Stand

Serious Business is what's on the mind of Craig Neblett as he acts as prosecuting attorney.

Mock Trial was exceptional. The students who were involved practiced long and hard for over three months to make their performances superb.

The case was called, "People vs. Dennis." It was a very intriguing case of Karen Dennis being accused of vandalism and changing her grades on her school's computer.

The students rotated being defense attorneys, prosecuting attorneys, and witnesses. Regardless of their part, they had to study the case thoroughly and know every detail about it.

Mr. Durian, Mrs. Holmes, and Mrs. Cramer, the advisors, patiently helped these students and encouraged them in everything. **Mr. Cramer**, the judge, assisted in practice and gave them plenty of advice.

The students alternated with other schools either defending or prosecuting. They competed with different schools in an actual court situation. They were judged for skill, performance, and knowledge of the case.

They became more familiar with our country's laws and judicial system. "If I ever have to go to court," says **Kim Tong**, "I know I'll be prepared." It helped them realize the importance of a fair trial. ♦

Going Abroad

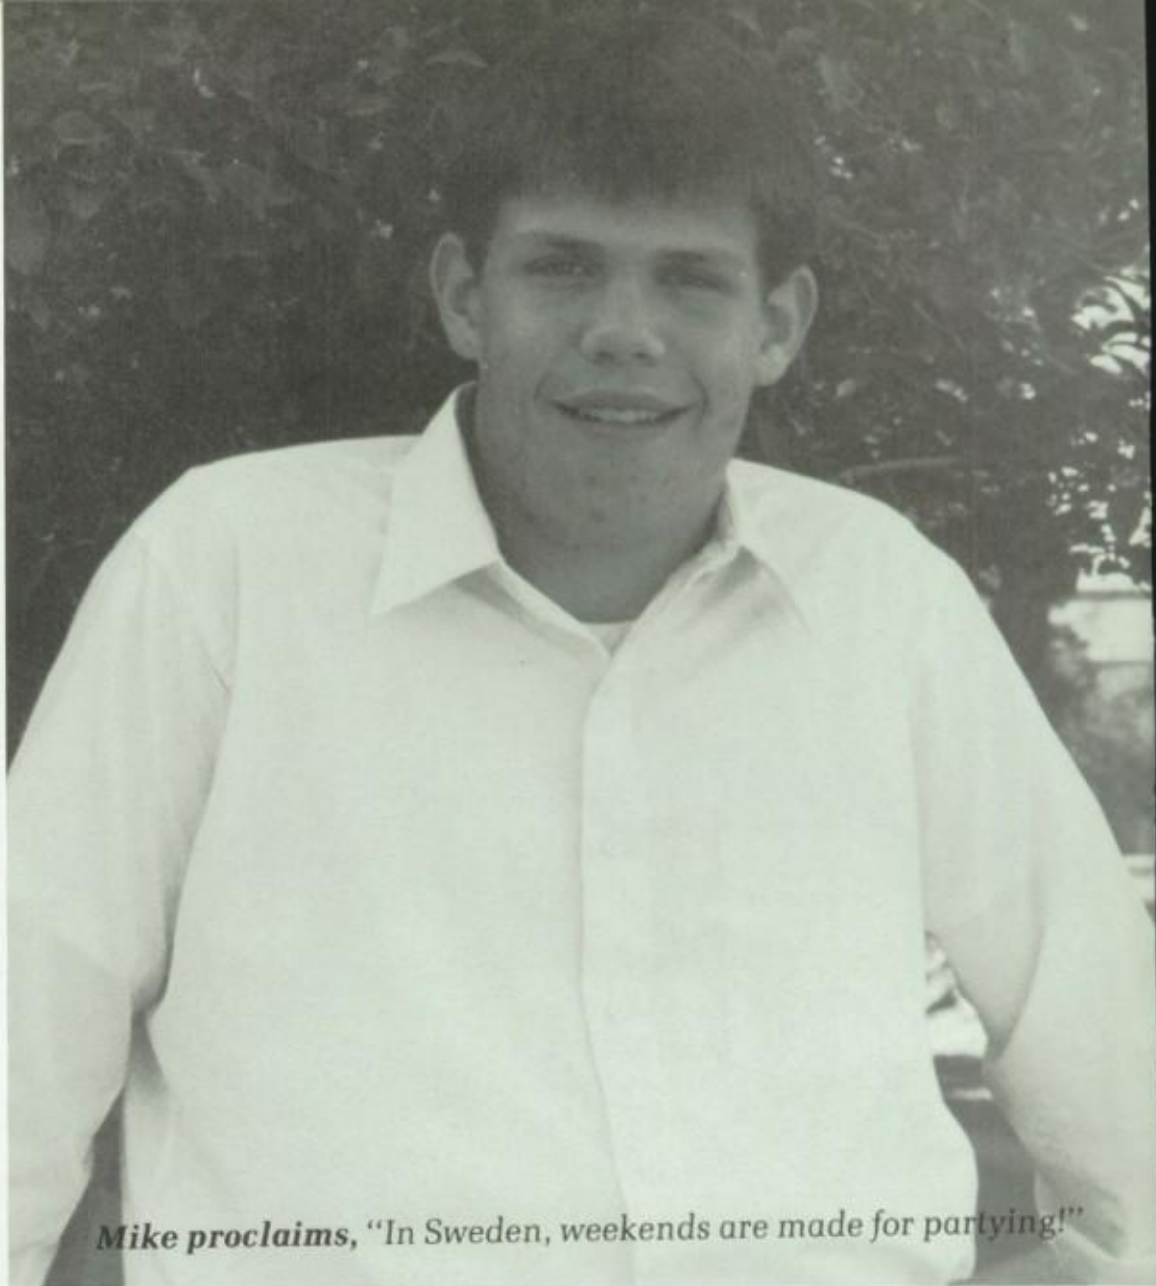

Last year two of Chaffey's students had the rare opportunity of going abroad to study. **Terry Benney** went to Germany, and **Mike Wilkins** went to Sweden.

Terri won a scholarship that paid for her year. "I liked the opportunity to see a different way of life," she explained about her trip. Besides school, **Terri** went out with her friends and loved to travel. She wrapped up her whole experience by commenting, "it let me grow more and taught me to be more independent."

"I liked living in a different place and changing cultures," **Mike** added. He read about the chance to study abroad in the newspaper and followed through. In Sweden, **Mike** enjoyed partying with his friends, weekends and traveling. **Mike** enjoyed the country so much that he hopes to go back soon to either visit or to live. ♦

In their experiences in Sweden and Germany **Terri Benney** and **Mike Wilkins** learn a lot about independence, which they could have never learned if they stayed at Chaffey for their Junior year.

Mike proclaims, "In Sweden, weekends are made for partying!"

Traveling and seeing as much as she could of Germany is one thing **Terri** did a lot of during her stay there.

Tiger's Roar

Tournaments are exhausting!

Tiger's Roar said it loud and clear. There were students who had something to say, and for the first time in many years, they had a chance to do so in competition against other schools, with a club's encouragement to back them up. Competing members went to several tournaments, and never came back without awards. "I compete because it brings out the best in me. It also helped me to cure my shyness," said club pres. **Lea Moncrief**, the only Chaffey speaker with previous experience.

The belief that public speaking is a nerve-wrecking, embarrassing experience is a popular one, but everyone who tried it proved it wrong. It helped to have **Kathy Felton** as advisor and coach. They all felt her influence was integral to their success. Students could relate to her, making work easier, and leaving them encouraged.

These students proved that Tigers that need to express themselves can, and will do so successfully, given the chance to put forth the effort. ♦

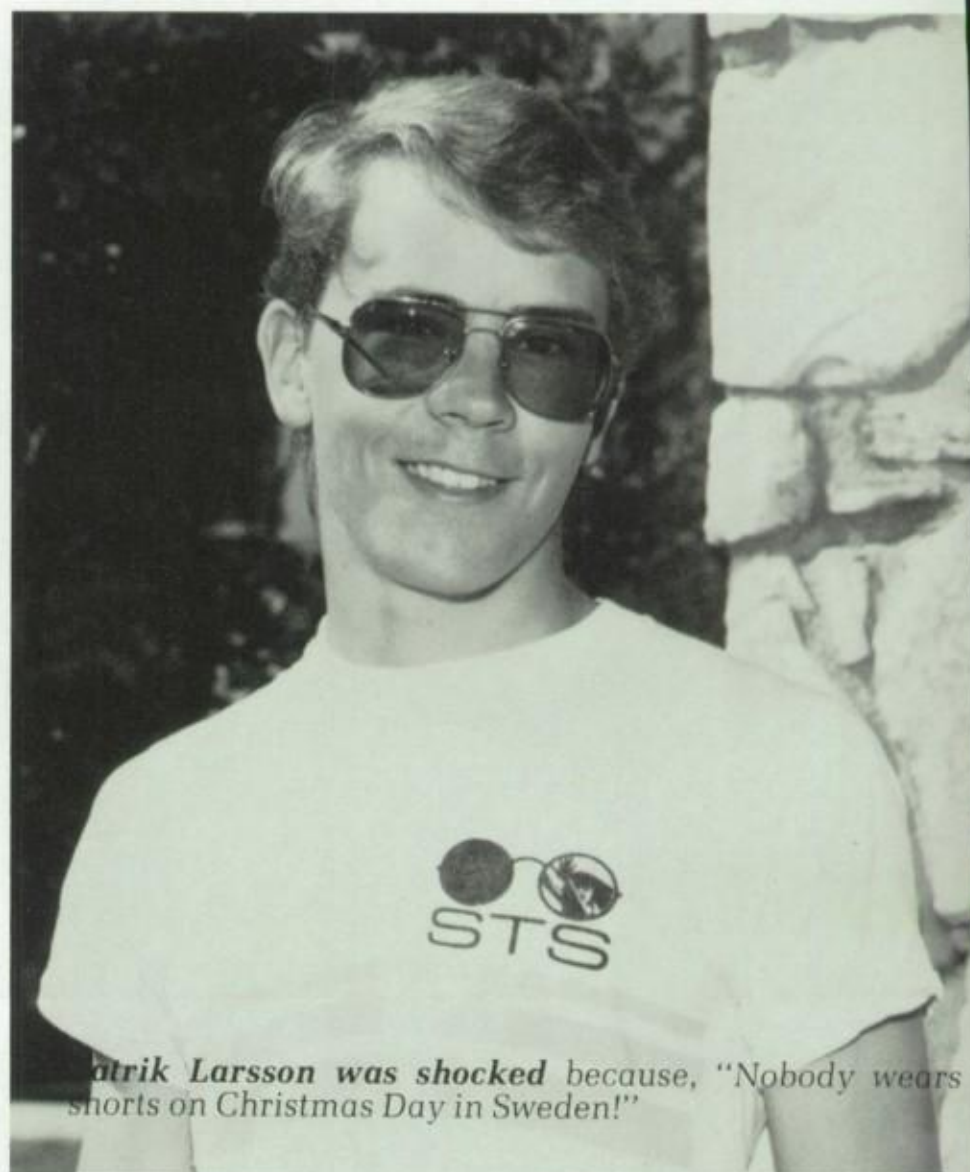

The hard work, trials and tribulations make Cristina Gomez, Shari Friebus, Coach Kathy Felton, Lea Moncrief and Kim Long feel closer together at the first meet at CSSB.

"To have some American fun is another reason Babette Meijer, from the Netherlands, came to the U.S."

“To know another country,” is one reason **Babette Meijer**, from the Netherlands, came to the U.S. to go to school. **Babette** was a Senior at Chaffey and had a great year. She enjoyed the way of life and the large school. **Babette** liked Chaffey because the students were involved, but she did miss her friends and family in the Netherlands. “I want to thank everyone, including my parents, for a great year,” was an important sentiment for **Babette**.

“I came to the U.S. to learn another culture, better myself and become a well-rounded person. I want to thank everyone in the school for being so kind and willing to help me, especially **Jenny Fuller**. I also

want to thank my very special family **Tom, Pegi, and Frank Foster.**” **Jeanette Jensen**, from Denmark, was a Senior at Chaffey while she was here. She enjoyed the people and hopes she can come back and visit again.

Patrik Larsson, came from Sweden. “I was interested about a new country,” he explained. While here he liked to watch television and go out with friends. **Patrik** also enjoyed the school sports and activities, like rallies and football games, that they don't have in his school. He wanted to express his thanks by saying, “Thanks everyone for making this year so special for me. ♦

Struggle for Success

What does it take to be a Sealbearer, or just a CSF member in the first place? Good grades, most people would say. The hard work, the pressure, and sometimes the frustration of obtaining these good grades, however, is what it's really all about. **Janet Goth**, a Sealbearer, confessed, "When it's two o'clock in the morning, it's tempting to let the rest of the homework slide, but you have to keep on going."

"Students who achieve Sealbearer status," commented **Mr. Johnson**, CSF advisor, "are the leaders of tomorrow." To be a sealbearer, a student must have been a member of the California Scholarship Federation for four semesters, including the first semester of their senior year. However, **Mr. Johnson** assured that, "Those who become members of CSF for several semesters but fall short of meeting the requirements for life membership will also be leaders in their own right; for they, too, are among the more capable." ♦

Actually studying in class, as shown by students in MS4, is what it took to make the grade.

The Honored Few

The privilege of being a part of the Ivy Chain or the Honor Guard was given only to the most academically excellent Junior girls and boys. However, the real privilege of being a member of these two groups was that of being a small, yet significant and honorable part of the commencement ceremony for the class of 1985.

The Ivy Chain formed the chain through which the graduating class would pass. "It was a way of saying goodbye to the departing Seniors," reflected **Kim Tong**. Because Commencement Day for 1985 was on Flag Day, the members of the Honor Guard were the flag bearers for the ceremony. The presence of the flags from different states added a colorful and solemn touch to the ceremony. **Manuel Ramirez** stated, "I felt privileged at carrying the flag for my upperclassmen." ♦

The House That ROP Built

At 6:30 every morning 71 ROP students and three advisors were ready to begin work. Ten of the students were here at Chaffey working on cabinets, and the rest were over by Montclair High School building a house. They were all involved in the ROP Building Construction class. Not all of them were Chaffey students, in fact, only about 17 were. The rest consisted of students from other schools and a few adults. "It's a good experience to be able to work with students from other schools while building the house," expressed **Steve Talyor**.

The building construction was funded by the state of California. Built by three different groups, construction, house wiring, and cabinet construction, the whole project took about eight months and was sold for around \$93,000. **Mr. Herrera** was the advisor for the 25 students on the construction crew who basically constructed the house and garage including the tiled roof. The house wiring was supervised by **Mr. Zmolek**. It took about two and a half months to wire the entire house, two months with only the frame, and two weeks when the house was completed to make sure everything worked. The last group, cabinets, was supervised by **Mr. Bertucci**. All the major construction of the cabinets was done at Chaffey and then put into the house when it was almost completed. When the house was finished and ready to sell, it was put on the market like any other house and sold to a happy customer.

It takes four to install a light switch, as Robert Becerra, Kevin Hargrove, Juan Soto and Cedric Thomas demonstrate.

Little jobs like putting tile on the roof, as Scott Burke and Rick Curletti do, contribute to the finished house.

Creativity Speaks

The outstanding artists of the Senior Class were a rather diverse group, but had creativity, talent and attraction towards art as commonalities. **Heidi** encouraged people who think they can't do the projects to go ahead and take art. She wasn't going to, but it obviously paid off allowing her to overcome the obstacles she set for herself. Art is something, **Sharon** would like to make a career; it's what she wants to do everyday, **Lisa** feels the same, and she thought her classes at Chaffey have helped her immensely. **Leon**, on the other hand, would rather not create for other people. He got plenty of satisfaction just having people enjoy his finished products. **Kate's** opinion on the importance of art was, "Some people express themselves through words or their clothing. Art gives the less outspoken people a chance to express their feelings." They all have their different opinions, but their true expression lies in the artwork. ♦

Striving for the Best

Working industriously to meet their deadline are Damon Karaiscos and Lisa Lux.

With a new staff and new ideas, the **Tiger Rag** was the best it has been in years. With high expectations, the staff strived for the best paper ever and achieved it.

As the new advisor, **Ms. Karen McNally** came in with the highest hopes. She wanted a paper about the school that people would want to read. **Ms. McNally** commented, "If the school is going to the trouble to put out a paper, then it should be about the school."

The staff has some high desires for this year as well. They wanted to be able to take pride in their work. "I have hopes for the newspaper. I think it's good," expressed staff member **Sandy Verbeck**.

The general feeling about the paper was summed up by paper editor, **Henry Ricci**: "All the high expectations made the staff strive to be the best and that made the paper great!" ♦

"There's the missing word!" points out Ms. McNally to Sandy Verbeck and Shari Nugent.

Yearbook staff members were asked this question: "If you were a Fasti, what would you want people to do with you?"

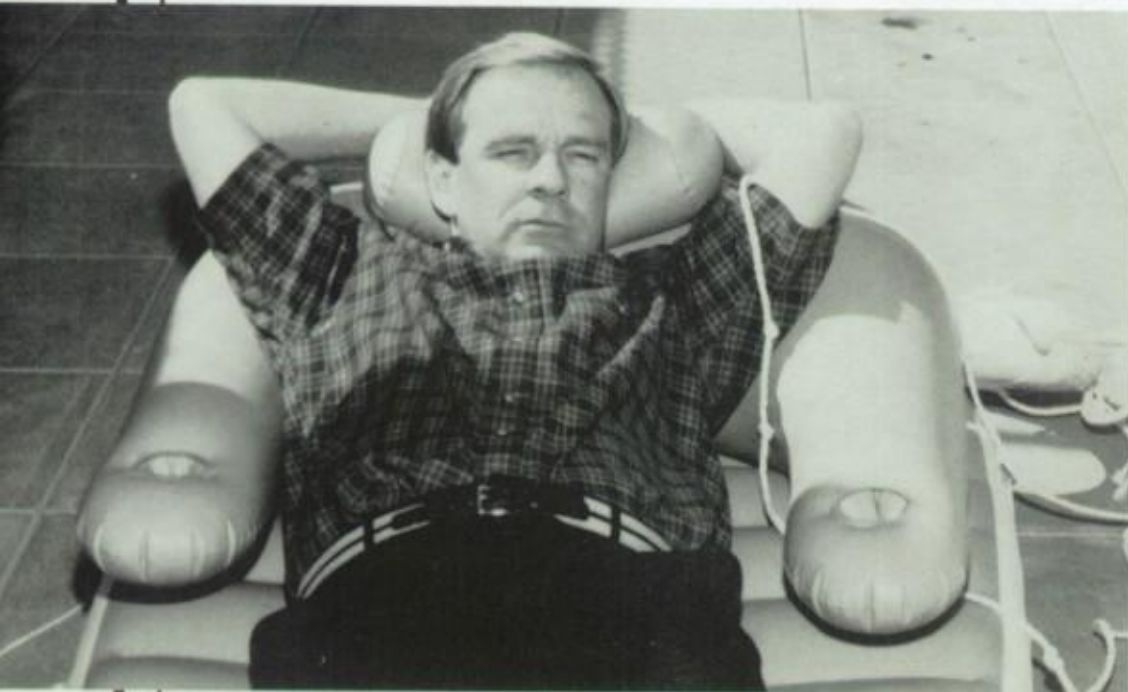

"To look at me often, not just put me on the shelf," is what would be important to **Laura Vaught**, editor. **John Chimber** said that he would want his owner to "put on one of those 50¢ plastic covers, not drop me and ruin my binding, and to write nice things in me, not bad words."

Olga Herrera and **Ninette Duran** wouldn't want to be just another book if they were Fasti's. "For people to take care of me, not abuse me, to treat me with respect!" were **Olga's** wishes, and in **Ninette's** words, "I would want people to LOVE me."

The Fasti is important to many people because it holds all the memories of their high school years. "It's a way to keep that period of time still, in my belongings," was how **Lupe Pasillas** put it.

So when you're looking at this Fasti, keep it all in mind. When you're finished flipping through the pages, and it's time to put it away, think about how you would feel if you were a Fasti. Think of how **your** yearbook feels. It probably wants you to know, in the words of **Mark Jackson**; "I'm trying to be a good book." ♦

A Head Start in Government

It was difficult to believe that a student could have the time of his life while actually learning something valuable. Last summer, **Jennifer Ball** and **Chris Van Duin** were proof of that as they were the two privileged students to represent Chaffey in Sacramento for Boys' and Girls' State. Boys' & Girls' State was a yearly event sponsored by the American Legion and the American Legion Auxiliary in which students from different high schools throughout the state visit Sacramento for a week and learn about our governmental process. The students learned by actually taking part in many simulated activities such as elections and governmental procedures carried out according to the existing laws of California.

Chris and **Jennifer** stated that the week-long experience gave them a basic knowledge of politics that will always be useful to them. However, in describing the event, what seemed to be most important to them was the group of people they shared it all with. **Jennifer** related "The girls all had something in common, yet they each possessed a different kind of creativeness and different insights." Though it was the best of times for both of them, **Chris** described his experience with other boys differently. "Somehow, amidst all the sports, the craziness and rowdiness, you learned about government." They learned about our government in such ways that very few of us will ever have a chance to do so. **Jennifer** took part in the simulated elections for Supreme Court Justice and was part of such inspirational debates that she explained, "Some of the girls were actually going to go home and write bills for new laws." **Chris** was one of two boys to get a floor pass to an actual State Assembly.

Both **Chris** and **Jennifer** agreed that they learned more about people in Boys' & Girls' State than they did about government. **Chris** conclusively described the event as "The most educational, inspirational thing I ever did."

A Chance of a Lifetime

Michele Stark, Gloria Zambrano, Disa Rauch, Eric Thompson, Lisa Sutliff, Stewart Hunter and Nancy Greiser in Paris, France.

The chance to take a trip to France isn't something a student comes across everyday, as eleven Chafey students and advisor **Mr. Bob Haine** found out last summer. It took a lot of hard work earning the 1600 dollars to go on the trip to Europe, but it was worth the effort.

The students earned the money to go, with help from **Le Cercle Francais**, by selling candy bars, beef jerky, tupperware, programs at the Homecoming game, and having a rummage sale. "It was hard work, but well worth it," responded **Michele Hunter**.

On June 22, the trip began. In the course of eighteen days they visited Paris, Dinard, Nice, Geneva, Tours and London. While there they learned the customs and ways of the people. **Mr. Haine** rejoiced, "I was really pleased with how things turned out; there were no problems."

Michele Stark summed up the entire trip by exclaiming, "I had a lot of fun and enjoyed learning about Europe and meeting new and interesting people. I hope I can do it again!" ♦

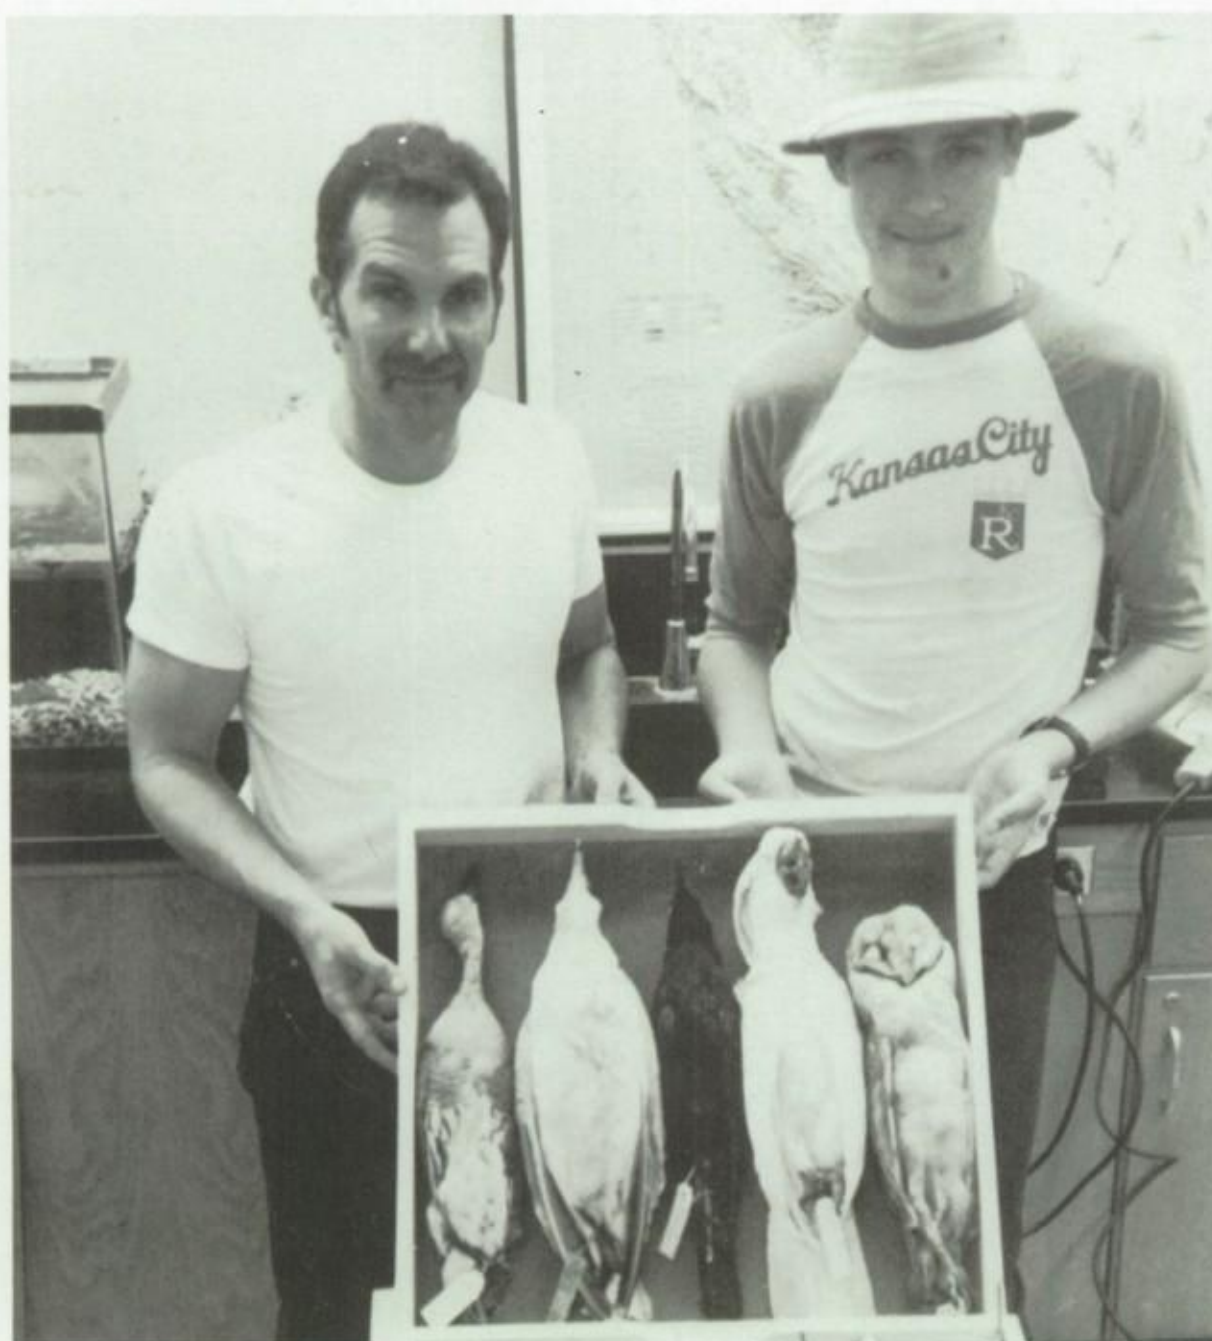

"Look Mom, we're in Europe!" exclaims Lisa Sutliff, Michele Stark and Michele Hunter.

"We're tired of waiting for that stupid bus!" sigh Stephaine Spencer and Kathy Gordon.

"The most rewarding thing about taxidermy to the student is that he can learn to take a bird that has died and preserve it instead of throwing it away. At the same time, he can learn a biological technique," explained taxidermy advisor, **Gary Alten**, who had been teaching classes at Chaffey for two years. **Mr. Alten** had always been interested in wildlife and started doing taxidermy when he was ten years old.

The taxidermy classes were held every other Saturday morning. This program has been in effect since fall of 1984. There was no formal enrollment in the class. Thus, the amount of people in the class varied. There also were no class credits given to the students. It was done on free time and voluntary.

The class usually worked on birds ranging from the small Dark Eyed Junco to the large Argus Peasant. Instead of getting birds that were killed for the

A Special Facet

What really goes on downstairs in North Basement? Most people wonder this. There's no real mystery, it's the Special Education Department that helps students cope with school. One of the many facets of this was LSH. LSH is Language, Speech, and Hearing run by **Mrs. Helen Demetrion-Boatright**. "It helps students function as an integral part of the school, home, and community." **Mrs. Demetrion-Boatright** explained.

LSH deals with all aspects of language and understanding it, better speech, and the hearing impaired. It helped the students adjust and fit into the school and community. "It helps me feel confident when I meet new people," **Juana Olmos** expressed joyfully. The student also enjoyed school more with their new found confidence. "We have fun in class." **Ann Wierzbinski** explained. Because these special classes were offered, students were encouraged to develop all aspects of their education, including those which were considered obstacles. ♦

Shining Like New

Volunteering their time, Pat Mergener and Rick Garnica look on as one of the old-fashioned light posts is raised into place.

In 1939 Gardener Spring Auditorium, better known as GWS, was dedicated. Because of constant use through its 45 years of existence, it has consequently run down. However, this year and in the forthcoming years, it will be restored to new. **Mr. Phil Gosswiller**, Assistant Principal explained, "Once we have completed it, it will be something the community can use for the next fifty years."

Over \$350,000 was raised by donations from various community groups and large businesses. So far, a new roof was put on, bathrooms on the lower floor were installed, the pipe organ was restored, the building was painted, water spots were removed from the ceiling mural, and old fashion lights were installed on the front pathway. Though a lot of work has been done, there is still a lot of work to do, like new seat covers, new carpet and an updated sound and lighting system. The new look given to GWS has given the school and community a look of history. "It's wonderful, it adds to the campus a feeling of our history," **Tom Foster** exclaimed. ♦

Piping like new, the grand 1919 Austin Theatre organ was restored to its full glory.

Standing proud, Gardener Spring Auditorium, dedicated in 1939, is still used by all.

Pacesetters

It took people with special talents to make sure that all the goals of the school year were accomplished. These people were the pacesetters otherwise known as our principals. These men devoted themselves to their school and to the students. If it were not for the efforts and dedication that they unselfishly gave, then our move to improve would have been futile. They quickly earned the respect and cooperation of the entire student body, to make this seventy-fifth year so special. If they had not been so willing to meet our needs then the 1985-86 school year would not have been as great as it had. ♦

Dr. David O. Stine, Principal

Mr. Phil Gossweiler, Assistant Principal.

Now that's much better.

Mr. John Mendoza, Assistant Principal.

The "Backbone"

How could the principals do anything without our devoted secretaries? If the principals needed any help they were always there, willing to take on that next task. It wasn't always that easy to be a secretary. They, too, had many deadlines to meet throughout the year, working together with other members of the staff as well.

They could often be found hours after students left taking care of necessary, but tedious tasks. ♦

Miss Cathy Felton, the new English and speech teacher was also the advisor for the Speech Club. Last year, she taught a government class on campus for one quarter. She loved it so much that when an opening came up, she went for it. Receiving her Bachelor of Science and Social Science degrees in English at Cal Poly of Pomona, she plans to someday return to school.

With much energy, she enjoys running, five days a week for three miles. Reading many types of books is another favorite pastime. When asked what was her favorite book, she replied, "I really can't say because I have so many."

One extracurricular activity, which she enjoys very much, is the Speech Club. As a result of her involvement, she stated, "I love the students, they're a lot of fun." Her advice to students dealing with speech was "Even though it is difficult and challenging, after you pass the first fear of facing the audience, it's uphill all the way." ♦

Proud and Spirited

Jenny Hanley has been teaching at Chaffey for 12 years. After attending the University of Missouri and receiving a Bachelors degree in Sociology, she came to California and received her Masters degree in Special Education at Cal State Fullerton.

For the past two years **Mrs. Hanley** has been advisor of Pep Squad and really enjoys it. She also enjoys racquetball, swimming and watching her children's soccer games.

Not only does she take pride in her work, but also in Chaffey's staff and campus which is characterized by it's size and history. Playing an active part in the "mother school" of the district makes her feel really great. **Mrs. Hanley** also pointed out how much she is encouraged by the recent spirit of the students.

Always open to new ideas, it's possible that you would find **Mrs. Hanley** socializing or maybe just eyeing the different groups of people around campus which really impress her due to the originality that Chaffey's students possess. ♦

Showing his patriotism in health class, Mr. Waters implies that if you want to stay fit, do it for yourself and the U.S.A.

Life is Fun

Ms. Garcia has been teaching in the district for thirteen years. She has an A.A. in Psychology and a B.A. from Cal Poly. Going to college was not her plan, but she got a scholarship, took advantage of it and is now a teacher at Chaffey. "Being the first in my neighborhood to go was an experience," Ms. Garcia stated. According to her, "People have the chance to become someone in life."

She enjoys going to concerts and traveling. Some of the places she has visited are Hong Kong, Red China, Columbia and has been to Europe twice. Ms. Garcia is also the advisor for the Girls' Intercultural Club. The function of the club is to ease tension on campus. "At the first meeting, only thirty girls showed up, and now we have about fifty girls." The Chaffey Intercultural Club provides the girls and guys with positive options, such as their services for the school and community.

Ms. Garcia commented, "Growing up doesn't mean you're supposed to stop having fun; a responsible adult gets to have more fun because you have more money." ♦

The Car Man

Way out on the far regions of Chaffey's campus sits a building called West Hall. Inside this foreboding architectural masterpiece lurks the ominous **Mr. Bancroft**. His educational background includes a Masters degree from Long Beach State College, and he is also a graduate of Chaffey. He was a mechanic for auto dealers for twenty-one years before he began teaching part-time as a substitute. In 1963, he was offered his current position as an auto shop teacher at Chaffey where he has been for twenty-four years. The school board provided him money for the equipment needed to start a vocational shop. **Mr. Bancroft** likes teaching and being around kids because it helps him to keep feeling young. When asked how he felt about being out in solitary West Hall, **Mr. Bancroft** replied, "I love it. I do my own thing, and nobody bothers me." ♦

After having majored in Biology at Cal Poly, **Mr. Wilkens** was employed as a marketing representative. For sixteen years, he worked at the Edison Company until a career change took place.

As many students know, **Mr. Wilkens** teaches Physiology and Health Science. "Since I was young," **Mr. Wilkens** explained, "I have always had an interest in science and wanted to become a doctor." In his classes, one of the ways he related to students is by telling stories about his experiences when he took part in the Reserve Program in the army.

Mr. Wilkens stated, "The career transition has been a benefit because I like dealing with people." More Than Just Candy

Someone once said that Margaret Bouch's job may be considered one of the most important on campus. As student store manager, she is in charge of a variety of tasks which need to be accomplished day in and day out. Ordering candy and sodas, handling the club's and ASB money and doing so many other things are what takes up Margaret's work time. One main aspect of Margaret's job that she enjoys most is working with the students.

Margaret has been with Chaffey for fourteen years working as a clerical specialist for eleven years and more recently as student store manager. When you speak to her, you can see the enthusiasm she has for school spirit. "I really enjoy working with the students; my job would be very boring without them." The students feel

the same way towards her, **Jenny Fuller** stated. "Margaret is a real friend, one you can depend on, fair but firm."

Margaret Bouch was a graduate from Chaffey High in 1957, who was very involved in school activities. She is originally from the West End, and was born in Upland. At the present time, her hobbies include swimming, sewing, and travelling. "I love going to Mexico." A class which Margaret is currently enrolled in, is wood shop, which she enjoys very much.

As one can see, Margaret Bouch is one of the most important and influential staff person on campus. Working with and helping students seems to be one of her favorite pastimes. As **Gary Simpson** said, "It is impossible to survive without Margaret here, literally." ♦

Working closely together, Venus and Henry have formed a close working relationship as well as friendship.

Keep a Professional Air

The unsung heroes of day to day high school life were those in the front office, more specifically, the counselor's secretaries. These ladies were skilled professionals trained in the mysterious art of running an office. Day in and day out they dealt with students, parents, and those they worked closest with the counselors.

They were able to keep a professional air while at the same time forming close working relationships among their co-workers. "Working as close as we do, you have to learn to be friends," commented Freshmen-Sophomore secretary, Mrs. **Evelyn Inman**. Beyond the working relationships, there were the friendships formed with students. When the counselors were busy, a student in need could always count on a caring ear from them. "Sometimes the kids can get a little too much but, they're what makes this job worthwhile," stated Junior-Senior counselor, **Marie Ramirez**. ♦

For Whom the Beeper Tolls . . .

It's 4 a.m. — the telephone rings. The police inform **John Viggiano** of a fire hydrant running on Chaffey's campus. **Mr. Viggiano** puts on his robe and slippers and lumbers on his way to school. He arrives to discover the water has gone underground and flooded Gardiner Spring Auditorium. A couple of hours of hard work and GWS is dried out . . . Good morning.

On call 24 hours a day, John Viggiano goes above and beyond the call of duty as Chaffey's Operations Foreman. At times **Mr. Viggiano** was called upon in the middle of the night and worked four to five hours before most of us even thought about getting up. **Mr. Viggiano** claimed that his title of Operations Foreman was just that, a title, and that he is a working foreman.

Working a 10 hour day for 19 years, **Mr. Viggiano** was foreman to ten people. He and his clan were responsible for numerous acts of community service including setting the auditorium for special concerts or school elections, the cafeteria for banquets and dances, and work outdoors for the Homecoming activities, Tournament of Bands and graduation. He did all of this in addition to his regular custodial duties such as keeping the campus' 80 restrooms in operational order, and keeping up the campus' fourteen buildings, which all counted equal 29 stories. **Mr. Viggiano** has to cover not only us, but also Chaffey Adult School which operates four nights a week and covers 56 classrooms. All of this keeps his beeper sounding close to all day. ♦

The Boarders

The Board of Trustees directed the surrounding high schools of the Chaffey Joint Union High School District. The trustees have to deal with the budget as well as approving proposed plans, dealing with up to 50 million dollars a year.

The public elected the officers for four year terms. **Mr. Uhalley, Mr. Martin, and Mr. Wolf** have just been elected. While **Mr. Sarrio, and Mrs. Kinley** have two years left on their terms. The officers in turn hire the administrators to run the day's operations. ♦

Tigers Fight

The Junior Varsity Football team turned in a great year for **Coach Jim Reno** and **Bill Thornhill**.

"The players learned how to deal with adversity to hang in there and win the close games," commented **Coach Reno**. The speedy defensive backs and strong defensive line held even their strongest opponents from scoring most of the time. Chaffey's only Baseline League loss came to a strong Alta Loma team 23-10. The offense was not to be overlooked, with the powerful foot of **Tom Shores** who had kicked a 55 yard field goal against Upland to beat them 19-17.

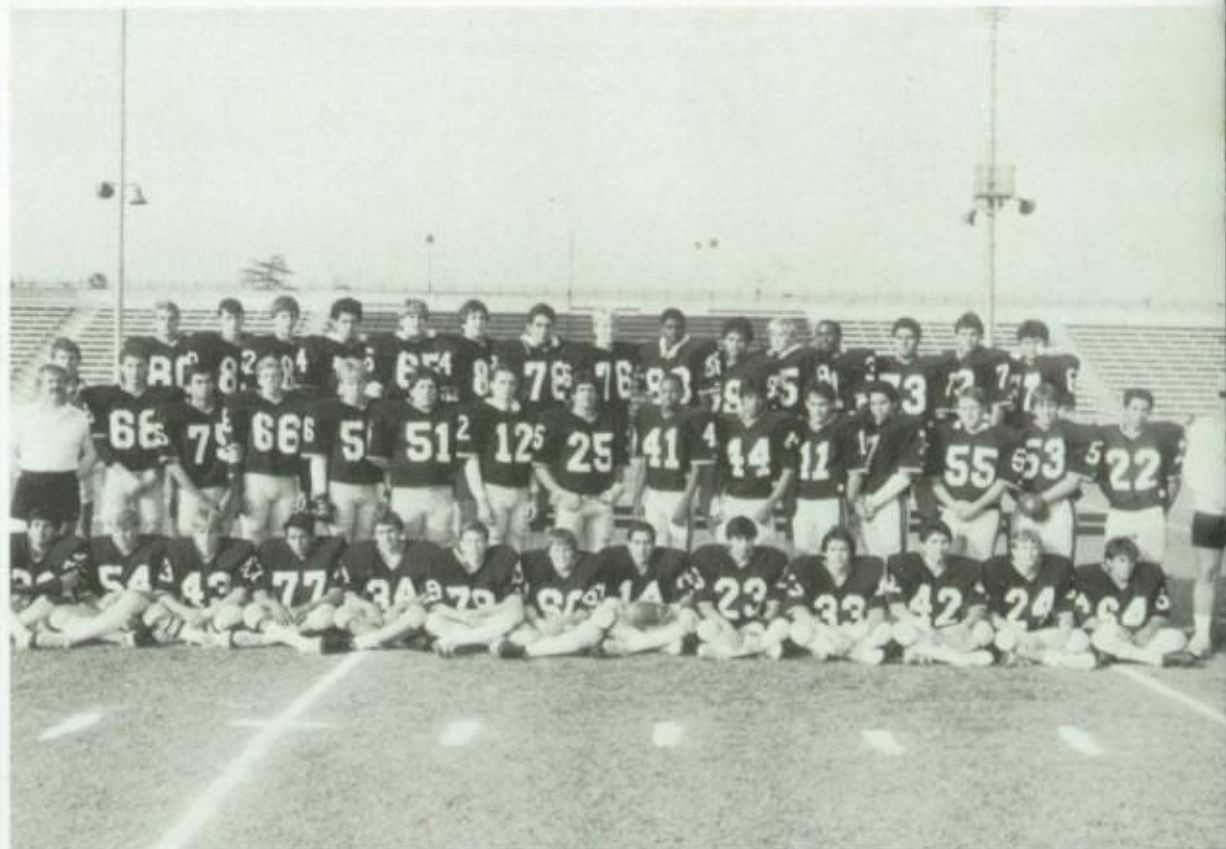

The teams only weakness was inexperienced quarterbacks. "I would learn by experience and build on my ability so I can play for Varsity next year," was what inspired **Louis Wilson** to play.

Despite the few weaknesses Chaffey encountered, the team should progress and become unbeatable.

Dan Nevill runs in with the new play. **Kirk Olmos** breaks through the line.

An Admirable Effort

"Oops wrong sport!" Kalini Mattson goes up for the jump ball.

Freshman football carried a cooperative and positive attitude throughout the season. They showed that the Freshman class had spirit and definitely some spunk. When **Joe Lukacsi**, number 65 was asked what inspired him to play football, he replied, "It gives me self-satisfaction to know that everyone on the team gives 100 percent all the time."

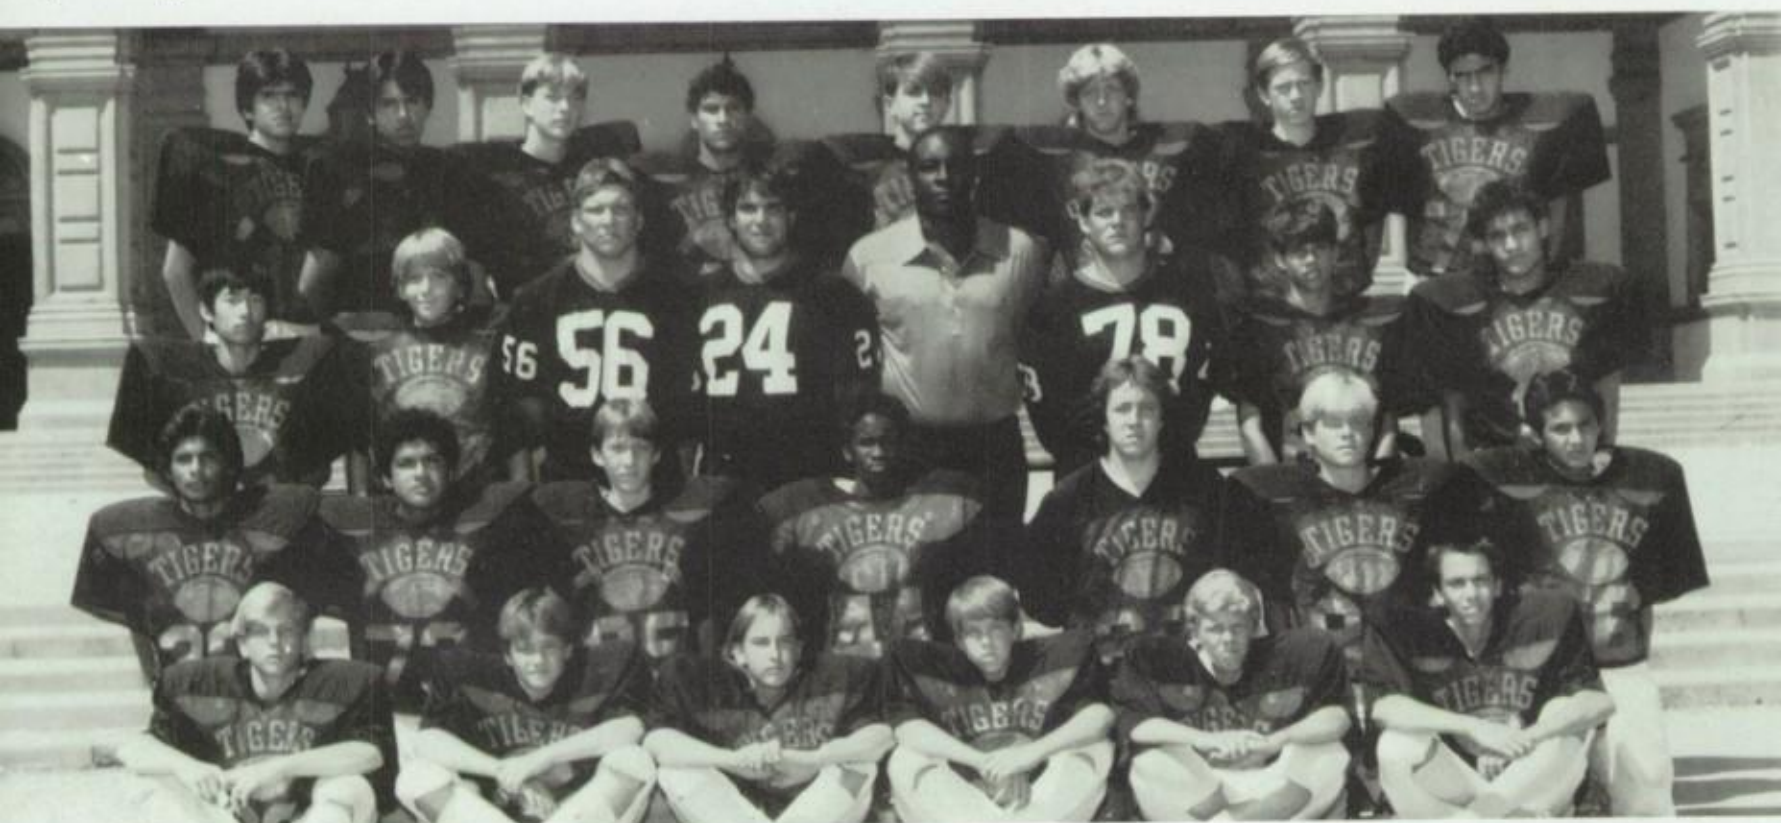

Since the team had a lot of inexperienced players, it took a while to get rolling, but once they began to master the basics, things began to jell. Unfortunately, the scoreboard didn't reflect the team's effort. **Charlie Moses**, the head coach for the team, felt one of the biggest problems was missing practices. "I tried to be lenient because at freshman level, they don't always want to come to practice" he replied. Although **Jeff Iverson**, number 54, felt that the long hours of practices that took away from his homework and friends, was all worth it.

Accomplishments in football do not always include a win. **Coach Moses** felt that getting better with improvement is the most important aspect of the sport. He also felt that his aggressive linebackers and accurate offensive passing, due to a little team work, is enough to feel good about. Hopefully, all the new experience and good cooperative attitudes will carry over the next season. ♦

Improving Their Stride

Exhaustion shows on the faces of Albert Aleman and Tran Dung.

Boy's cross-country greatly improved since last year. One aspect of this was seen in increased team spirit. According to Senior, **John Gravener**, "It was quite enjoyable to see the amount of team spirit that existed. It was certainly a major improvement from last year."

Performance was another way the team improved. Victories over Pomona and Don Lugo were the highlights of the season. The team also placed higher in the Baseline League Finals than in previous years.

Albert Aleman was a great asset to the varsity team, as was **Tran Dung**, one of varsity's Most Outstanding runners, who received medals in three invationals.

Performance indicated a strong cross-country team for Chaffey's future. When asked what he thought was in store for next year **Albert Aleman** exclaimed, "Next year we will be league champions!"

Spirited and Talented

Chaffey girls burst from the starting line.

Girls' cross-country was very spirited. **Coach Mike Arenas** expressed, "Working with this group of girls was the most enjoyable time I've had so far in my coaching career." **Babette Meyer** commented on team spirit saying, "Everybody was so nice to each other, just like one big family."

Matilde Martinez, junior, was chosen as the most improved runner. She cut six minutes off of her three-mile time. **Matilde** commented, "I did not think I was going to succeed, but after putting my mind on it and practicing hard, I finally did it and I felt great."

Highlighted by two freshman runners, **Valarie Akers** and **Monika Montiel**. The team performed well. **Valarie** took top ten medals in five invitationals. She also broke the school's course and freshman cross-country records, and was selected as one of the outstanding performers on the team. **Monika** also took top ten medals in five invitationals. She placed third in the Baseline League Finals, and is the first girl in eight years to go to C.I.F. ♦

J.V. Volleyball season proved to be a learning experience for both the coach and the players. First year coach, **Nan Fowler**, felt that the team worked well together, especially since most of the team consisted of Sophomores and Freshmen.

Team captains were **Daria Smith** and **Tami Williams**. Co-captain **Daria Smith** stated, "Even though we didn't have a winning season, it was fun. However, we needed to learn how to communicate with each other on the court." Summing up the season, coach **Nan Flower** said, "I really enjoyed working with the players. It was rewarding to see how far the team progressed." ♦

Lady Tigers Give Their All

"Oh no, here it comes again," cries Laura Verret.

Looking Ahead...

Varsity Volleyball had to suffer through the many difficulties that accompanied a new coach. Many of the players felt that they had the skill and ability to win, but having only two seniors and the lack of experienced players, the team was not able to pull together. Through victory or defeat the girls kept their spirit high, as team captain **Melissa Ramos** stated, "I had a lot of fun, even though we were a new team and didn't win all of the time."

High expectations are awaiting next year's varsity team. Coach **Susan Mach** felt, "The '85 team was very young and should be strong in league in '86." With eight of the ten players returning next year, the varsity team should be strong and united. As Junior **Laura Verret** summed up the year, "I don't think we did as well as we could have, but there is always next year. The main thing is, we had a lot of fun!" ♦

With this set, Melissa Ramos proves that practice makes perfect.

Girls' tennis was made up of seventeen girls coached by **Noreen Kistner**. Although the entire team showed strength, the players who showed the most talent and gave the most effort were: **Nancy Carter, Dianna Martinez, and Bernice Beard** on varsity; **Tricia Beasley** and **Veronica Hernandez** on J.V.; and the number one doubles team was made up of **Genie Pust** and **Cassie Matek**.

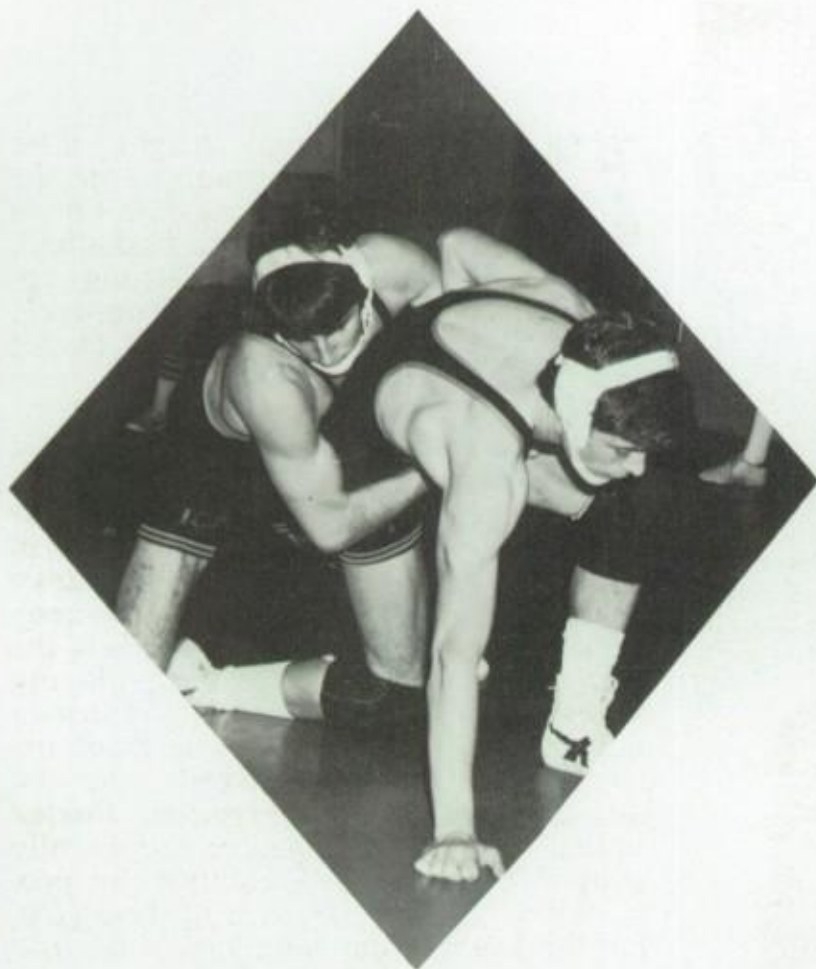

Although the girls didn't always win, they still had fun. According to **Nancy Carter** and **Bernice Beard**, a few of the good points were, "the other team members' personalities, the good spirits even after a loss, and the after-tennis parties, but the best part of practice," said **Bernice**, "was watching the football players walking to their practice."

The team motto was "To improve and have fun." **Coach Kistner** commented about the team, "The girls' strokes and strategy showed a great deal of improvement during the course of the season. They're a great bunch of young ladies, and enjoy their comraderie." ♦

Carl Campbell seems to be thinking, "You're not so big after all."

Despite the team's height, their talent and performance on the court showed that one didn't have to be tall to be good in basketball. "With this team, I used a strong approach. We needed lots of teamwork, discipline, and togetherness," stated **Coach Darryl Brown**.

With team captains **Dick Arabian** and **Keith Cash** leading the other members of the team, togetherness and teamwork was the name of the game. **Coach Brown**, along with assistant coaches, **Steve Hossler**, **Curtis Brown**, and **Chauncey Mann** felt that one of the highlights of the team was coming together and playing strong. With only seven of the fourteen players returning, this was a great accomplishment. When asked why he played the game, **Torrance Dozier** replied, "It's a physical sport, and I really enjoyed playing!" Overcoming the problem of height, with the average being 6'0, and the youth of the team, quickness and endurance were their number one assets. When we asked **Carl "Sweet C" Campbell** about his feelings on the team, he stated, "We have a good team, with the potential to be better." ♦

Coach Brown Finding the Challenge

After graduating from Hidepark High with three years of varsity basketball experience, it was off to college. At Iowa State **Coach Brown** played three years of varsity.

In 1974 he began his coaching career with the 7th grade team at a local junior high in Waterlou, Iowa. Following that year he coached for the freshmen boys for two years. The opportunity arose to become an assistant coach at the University of Northern Iowa, which he did for one year. **Coach Brown** then went back to high school coaching and stayed as varsity coach for the next two years. In 1978 he decided to move to Southern California and found a job at Dana Hills High, staying there for two years. Needing a challenge he decided to teach at the Las Pinos Institution for Young Adults. It was a real challenge for him because there were always different players on the team. At one time his team included two murderers and several armed robbers. Even though it was tough, he led his team to the C.I.F. playoffs. From there he went to Montclair High as varsity's assistant coach, and now he found the new challenge at Chaffey.

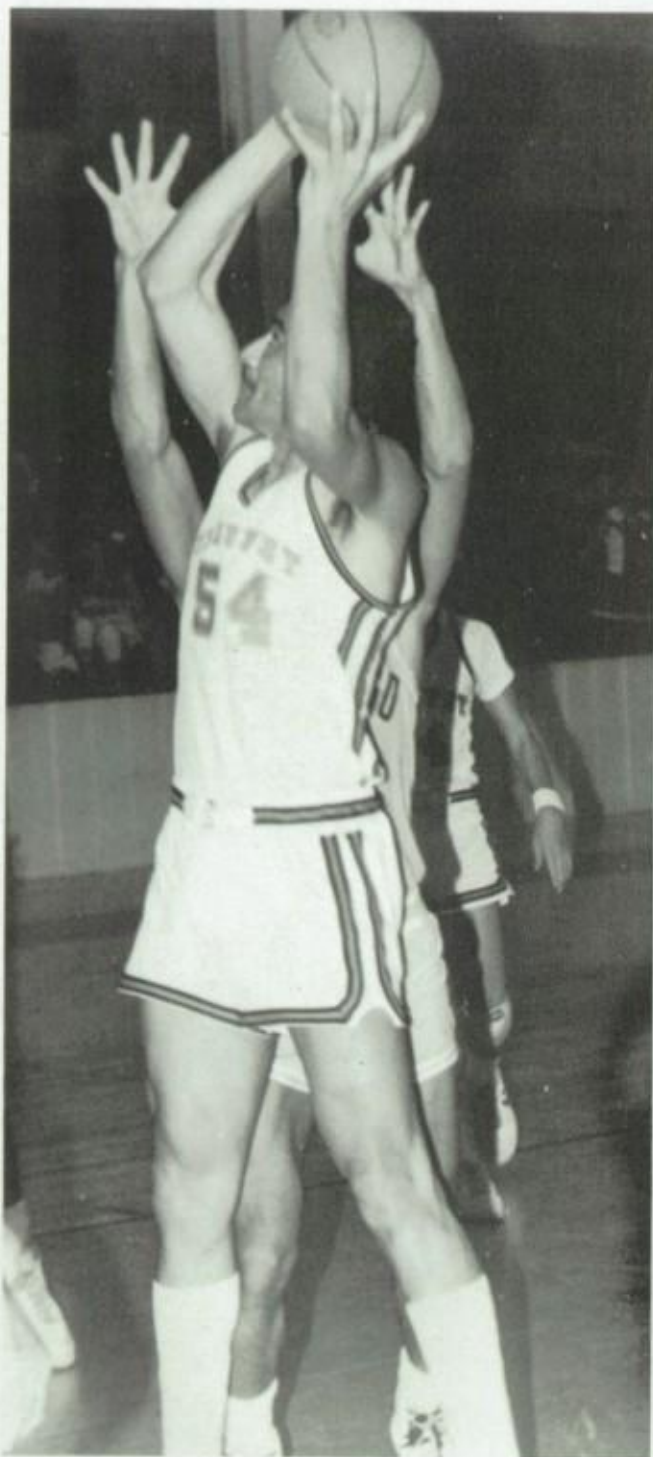

Having ties at Montclair and realizing Chaffey's past record, Coach Brown had mixed emotions about changing schools. However, after meeting with **Dr. Stine** and **Mr. Nelson**, things began to change.

After talking with last year's players and students from our school, he felt that everyone was behind the building of a winning team. He wasn't expecting a C.I.F. team, but he did feel that the boys had the talent and could rise to the occasion. He would like to remain here until he can help to build a dynasty. Summing up, **Coach Brown** replied, "My ego as a coach says we can win it all, however, if we win half of our games, I will be happy." ♦

Spirit Is the Name of the Game

The J.V. season started with a ton of enthusiasm and spirit. **Coach Chauncey Mann** stated, "This is a very committed team. The unity and spirit they possess will become something big in the future." Their goals were to play without mistakes and to control the boards. "I'm aiming to improve my basketball skills," noted **James Aquino** as he strived for improvement. **Felix Figueroa** and **John Wiesen** were chosen as the team captains. All the players felt that they could out-rebound anyone in the league, with their main assets being height and strength. **Chris Summers** felt, "We started out as a fairly good team, and we became 100 % better!" Summing up the season, **Coach Mann** said, "This J.V. team of soph's has recaptured something I can remember, called **TIGER PRIDE!** And it is apparent all over the campus."

Front Row: Randy Hale, Sioni Suliafu, John Wiesen, James Aquino, Charle Coleman, and Richard Ceballos. **Back Row:** Coach Chauncey Mann, Chri Brown, Ryan Balwochus, Paul Christian, Patrick Kanavy, Mike Phillips, Felix Figueroa, Paul Durling, and Mike Zeman.

A New Experience

Team captains, **Ricky Bolton** and **Demontre Bennet**, led the thirteen eager freshmen through the new experience of participating on a high school team. Energy was evident as they tried their hardest to beat every opponent. The boys' cooperation combined with their willingness to learn composed the team's greatest strengths. The team's most difficult game was played against Sunny Hills in non-league action. The team lacked a dominant floor leader and no one player with outstanding basketball skills.

Coach Chilcott returned after leaving his coaching position for one year. He felt the team concept was much more difficult for them to realize. Summing up the season, **Coach Chilcott** replied, "We did improve our team play, but errors, turnovers, and bad shooting kept us from winning."

As proud parents and relatives came to watch their boys play, they were experiencing something new themselves. When **Mark Hester's** mom, **Mrs. Bixenman**, was asked how she felt as she sat in the stands and watched her son play, she replied, "It makes me feel good to know he thinks enough of himself and his school to want to represent it." One consequence of participating in a sport was the "free-time" lost. When "**Mom**" **Blankenship** was asked how she felt about **Tim** participating in the sport, she answered, "It makes me feel proud, anxious, and a little nervous, but we never get to have dinner on time and his chores suffer." Overall, the parents felt it was a great learning experience, as "**Dad**" **Toulou** responded, "I think it makes them more understanding. Basketball is like a game of life, some days your good, and some days your bad!" ♦

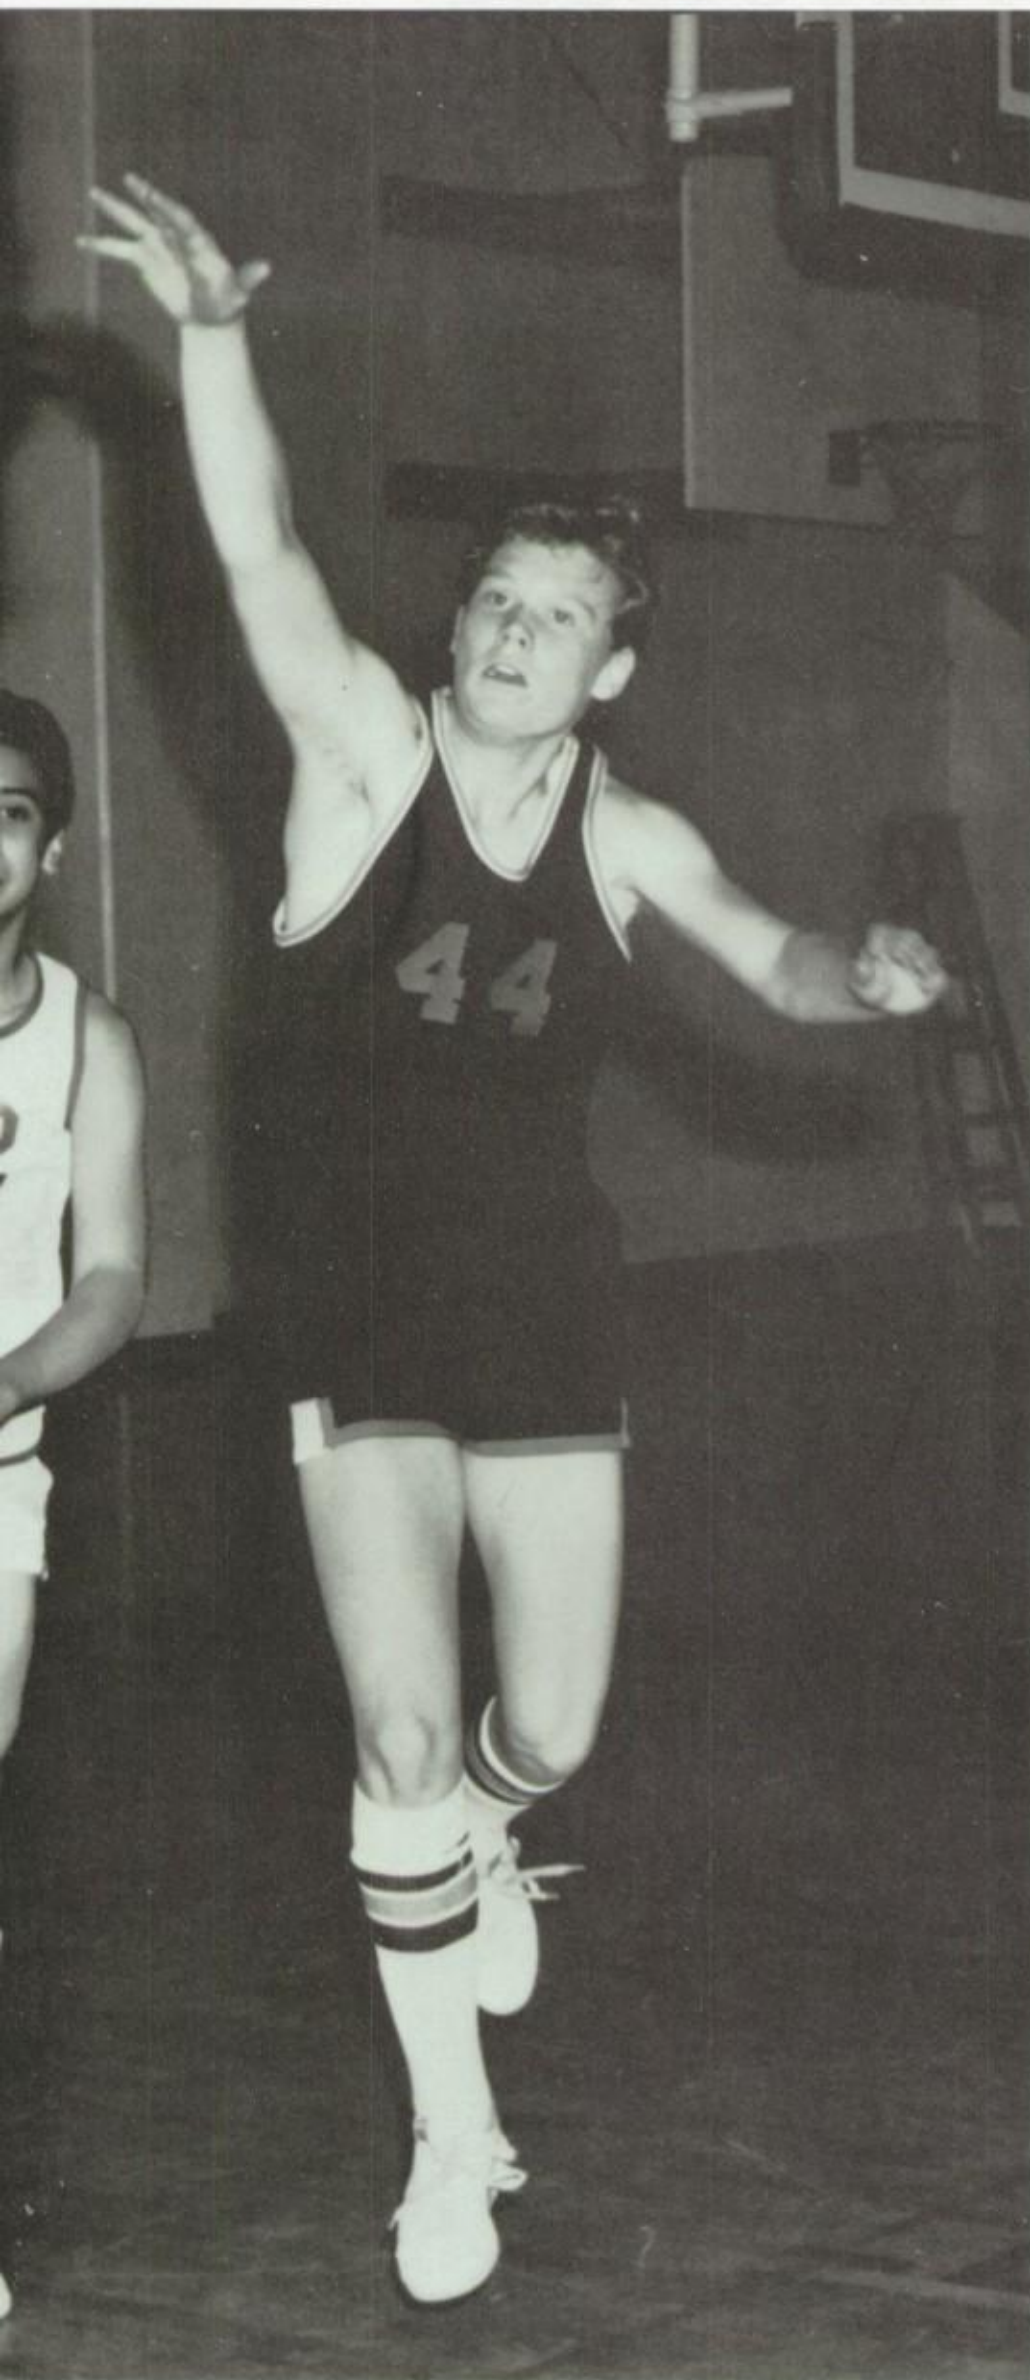

Slightly confused, Tim Toulou looks for the one man.

United We Stand

In spite of injuries and other various obstacles, the Varsity team had an overall successful season. As Assistant Coach **Scott Pearson** put it, "We had the potential to win, we just needed to put the ball in the net."

Overcoming challenges was no problem for these guys. Relationships on the team were strong—other teams just seemed to fight more. The team-work and togetherness were apparent throughout the season, especially at after-game pizza-parties, or just after-game parties. However, the togetherness was also very eminent on the field. "I think our strongest point was our team unity," stated **Rene Alvarez**. This pulling together helped to make the team one of the most competitive in league. ♦

The Winning Touch

With the strength of a Tiger, Ron Desormiers takes a shot on goal.

Showing his agility, Jim McCown takes it away.

We had one of the best defenses in the Baseline League — maybe the best," stated J.V. Coach **Ben Laughtenslager** when asked what he felt was his team's greatest strength. "**Julian Rancolm, Javier Perez, Jeff Flinn, and Pete Valdez** (goalie) really did a good job."

After coaching the team for three years, **Laughtenslager** felt that there was one other major contribution to the team's success — unity. He stated, "Most of the team has played together for years. For a school team we had a lot of unity — we stuck up for each other." And **Pete Valdez** agreed, "Our unity proved to be our greatest strength, and it made playing a lot more fun." ♦

Young — But Tough

Stirring up the chalk, Mike Tsonas concentrates on executing the perfect corner kick.

With the frosh/soph team, the biggest obstacle was learning to play *together* — to make it a team effort," stated Coach **Mike Banka**. The chance to grow and improve was presented throughout the season with tough opponents like Claremont, Upland, and Damien. "The team had a lot of possibilities; we just didn't bring it all together in time," remarked **Marc Irwin**. Backed by the enthusiasm, experience, and support of **Coach Banka**, the team felt they could do no wrong. They had a great time playing, and learned a lot. ♦

"I have tried hard to make the team work and become positive players, to be winners on and off the field," commented the girls' J.V. soccer coach, **Pete Petrollo**. His motto? To inspire confidence and motivation in his players. **Coach Petrollo's** positive coaching could be seen at any one of the team's games. "We really appreciate and feel lucky to have a great coach like **Mr. Petrollo**," replied **Dani Wilson**.

As a result of Coach Petrollo's motivation, the team had tremendous pride and team spirit. "Everyone has great team spirit, and it shows throughout our games. No matter if we win or lose, we are always happy," replied **Staci Heairet**. **Stephanie Spencer** added, "When we lose a game, we come back even stronger at the next one."

The agony of losing some close games was very difficult. "I would like to see the girls give Upland, Claremont and Alta Loma a run for their money!" replied **Coach Petrollo**. The team worked hard to achieve one of the best records that they have seen for a long time. "There were no truly easy games," replied **Coach Petrollo**, "but the easiest game was the one the team enjoyed the most!"

Springing into action, Alina Franco clears out the ball.

A Kickin' Season

Christina Villanueva races with her opponent to get to the ball first.

Starting off on the right foot, the Girls' Varsity Soccer Team captured, for the second year in a row, second place in the Garey Girls' Invitational Soccer Tournament. Headed by **Coach Richard Riley**, he stated, "We have a great offense and defense; however, we need to put it all together to be competitive in the Baseline League. One of the toughest in Southern California." According to the youngest team members, **Kristin Hoffman** and **Paula Fleischmann**, "We had lots of potential and we hope that it continues throughout next year."

Team pride was evident and the girls never lost their integrity to win. As one of the team captains, **Stephanie Fagan**, commented, "We might not always be the winning team, but we always stood up for what we are!" ♦

In a supreme effort to stop a potential goal, Maria Soliz shows goalkeeping skills.

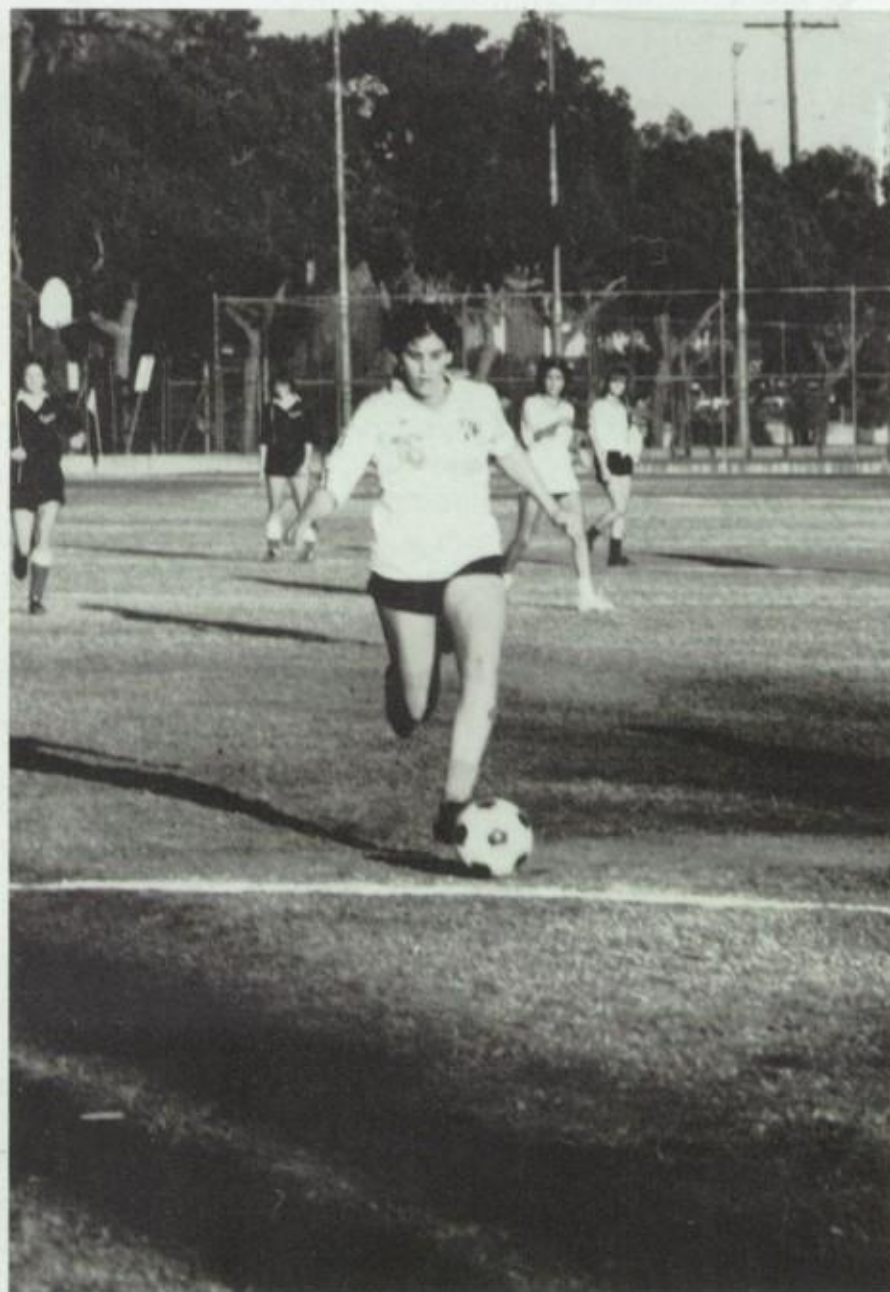

Front Row: Christina Villanueva, Kristin Hoffman, Maria Soliz, Paula Fleischmann, Monika Monteil. **Back Row:** Kim Shea, Coach Richard Riley, Robin Hemry, Julie Pederson, Jenny Collier, Denise Dryden, Melinda Saccone, Debbie Desomiers.

Starting off the season with a kick, Robin Hemry shows her greater determination.

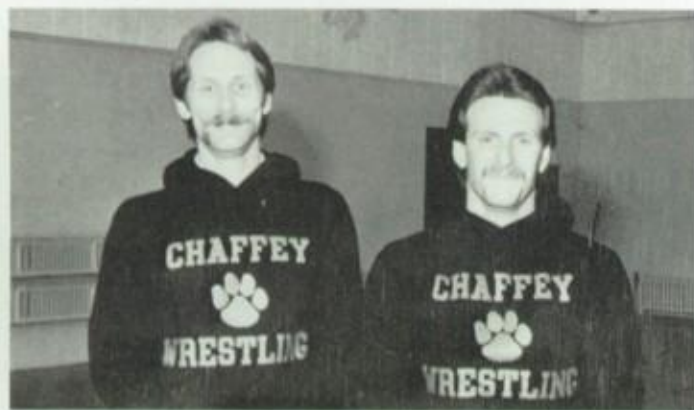

Charging down the field, Jenny Collier makes an attempt to score against Etiwanda's defense.

Placing her act, Stephanie Fagan makes a quick stop to recover the ball before her Etiwanda opponent does.

Wrestling is a very tough and demanding sport. It is not just an individual sport but a team sport. Each member works towards self-perfection while the combined total of their efforts reflect on the whole team.

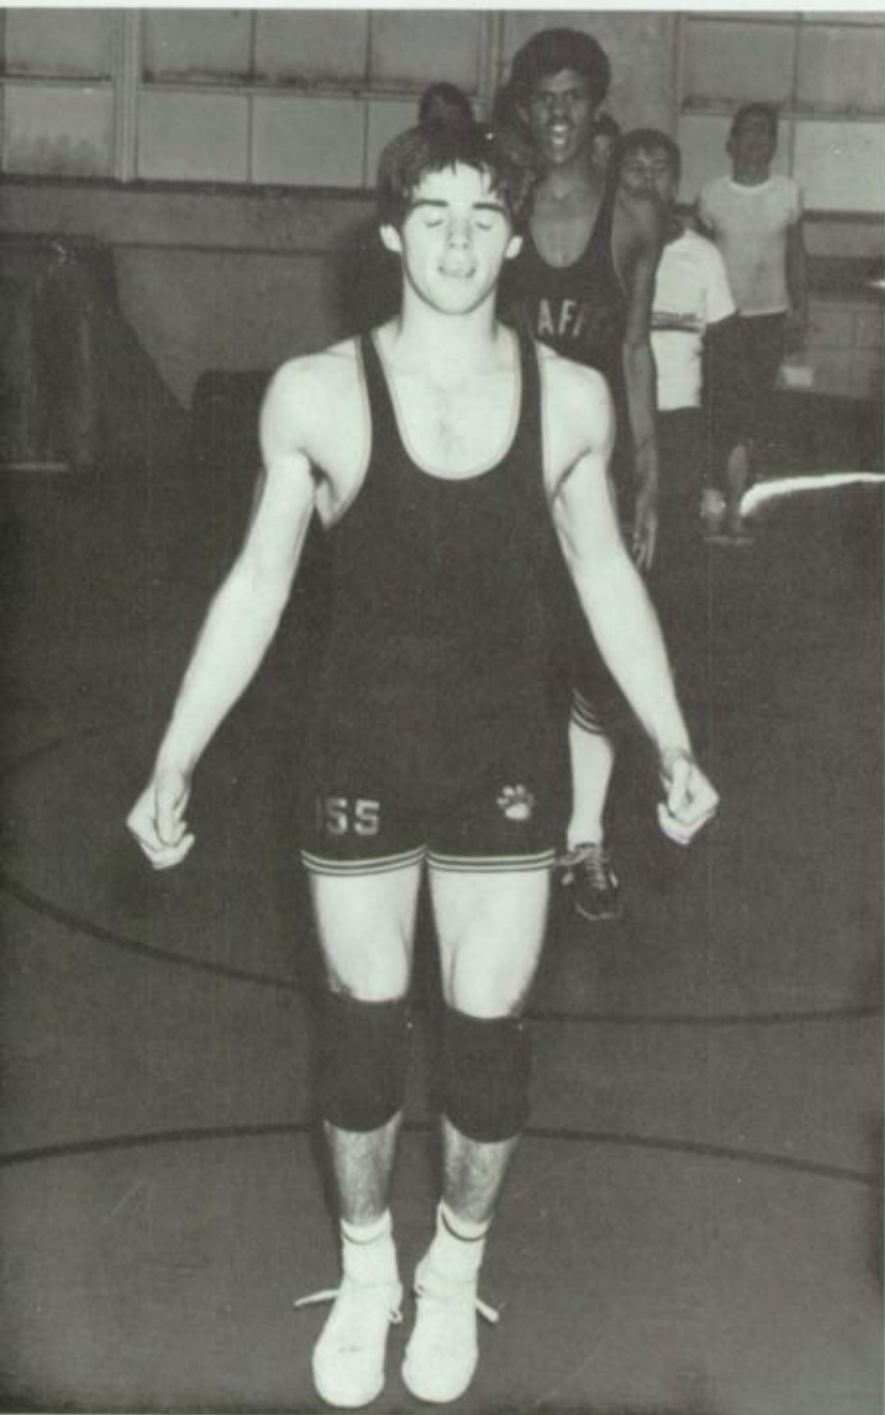

When asked what the teams' main goal was, **Coach Paul Bakas** replied, "Chaffey wrestling was a powerhouse in 1979 and our main team goal is to bring back the tradition and reputation Chaffey once had." Heavyweight wrestler, **Tony Collucci** said his main goal was to "Win, have fun and start the program off on a good foot." The team put in many hard-working hours to achieve this goal and to be competitive in the tough, experienced Baseline League.

The only way coaches **Paul Bakas** and **Pete Fotia** could express the description of the brand new wrestling team was, "We're like a jigsaw puzzle with all the pieces but just not put together yet and we are also a young team maturing rapidly with a lot of good potential." ♦

Top Row: Ed Krinock, Jim Cook, Dan McAllister, Jim Lynch, Hector Cervantes, Reggie Barnes, Ralph Rosas, George Moreno, James Hurd, Kevin Strawn, Sandobal Gustavo, Sabah Youssef, Ray Love. **Bottom Row:** Brian Weaver, Guy Cox, Rex Delk, Mike Mathies, Joe Perrez, Jim Collucci, Hashem Issa, Scott Whitson, Scott Galbreath, James Harling, Tim Teagle, Tony Collucci.

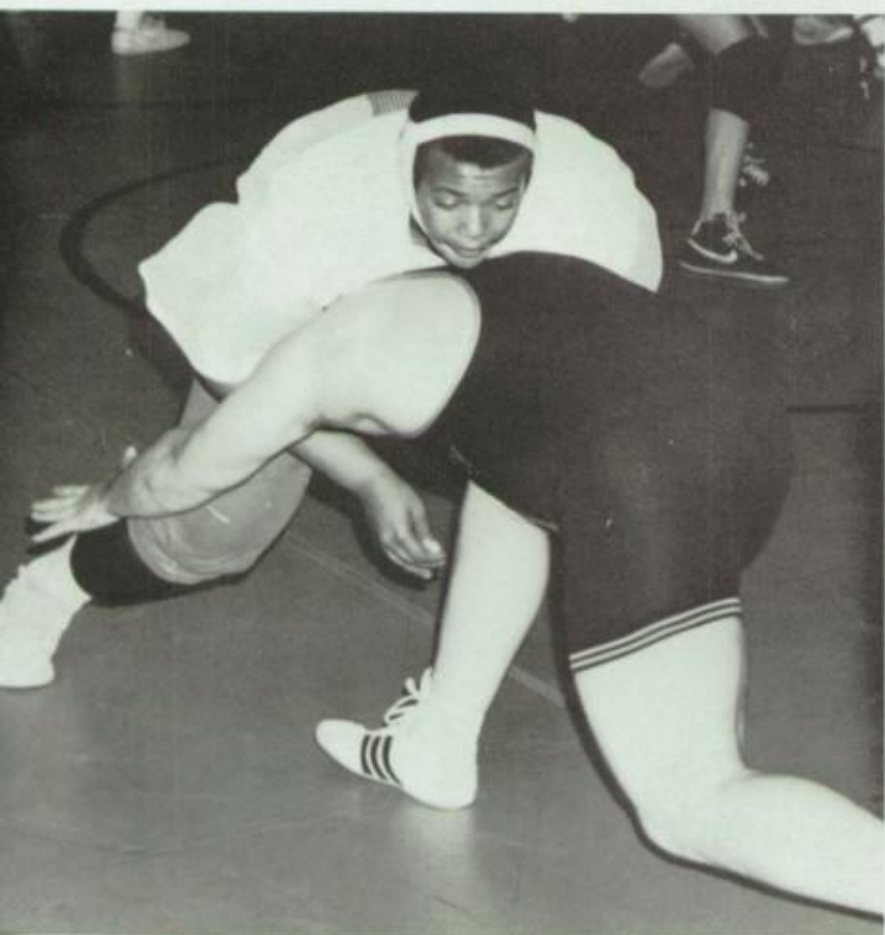

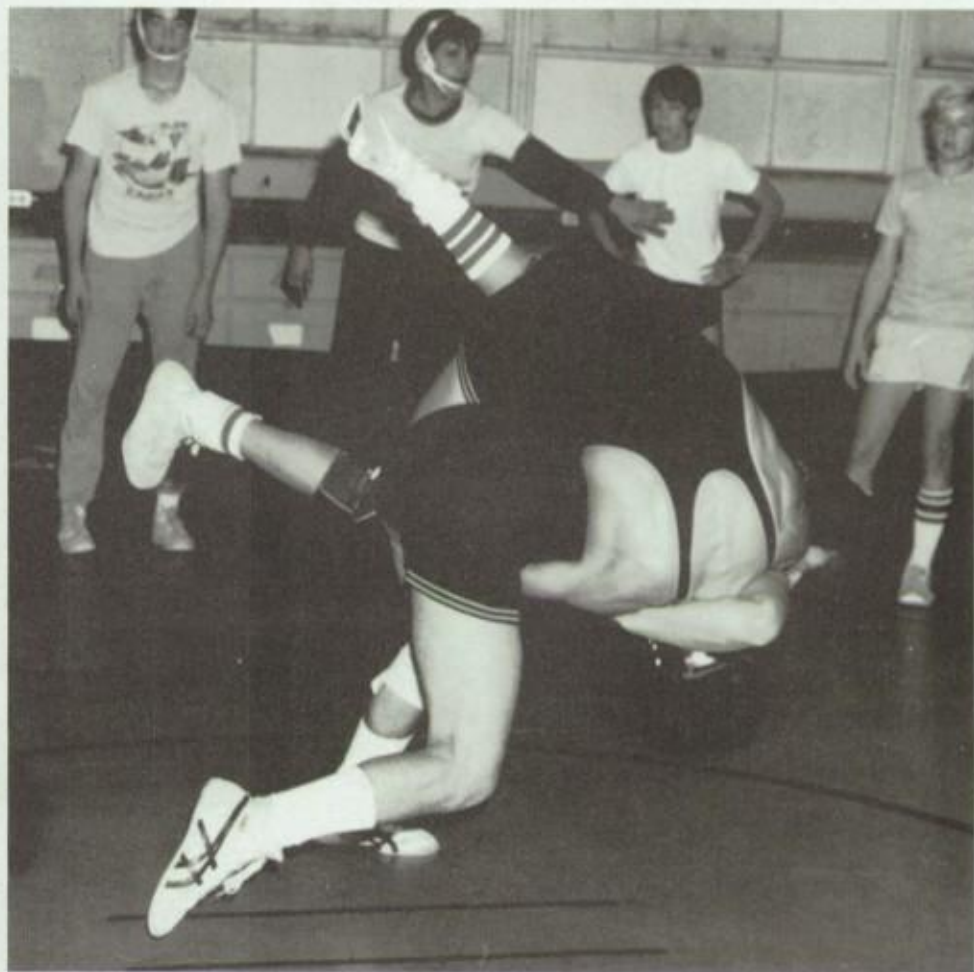

Hashem Issa prepares to make a **takedown** move on an Upland counterpart.

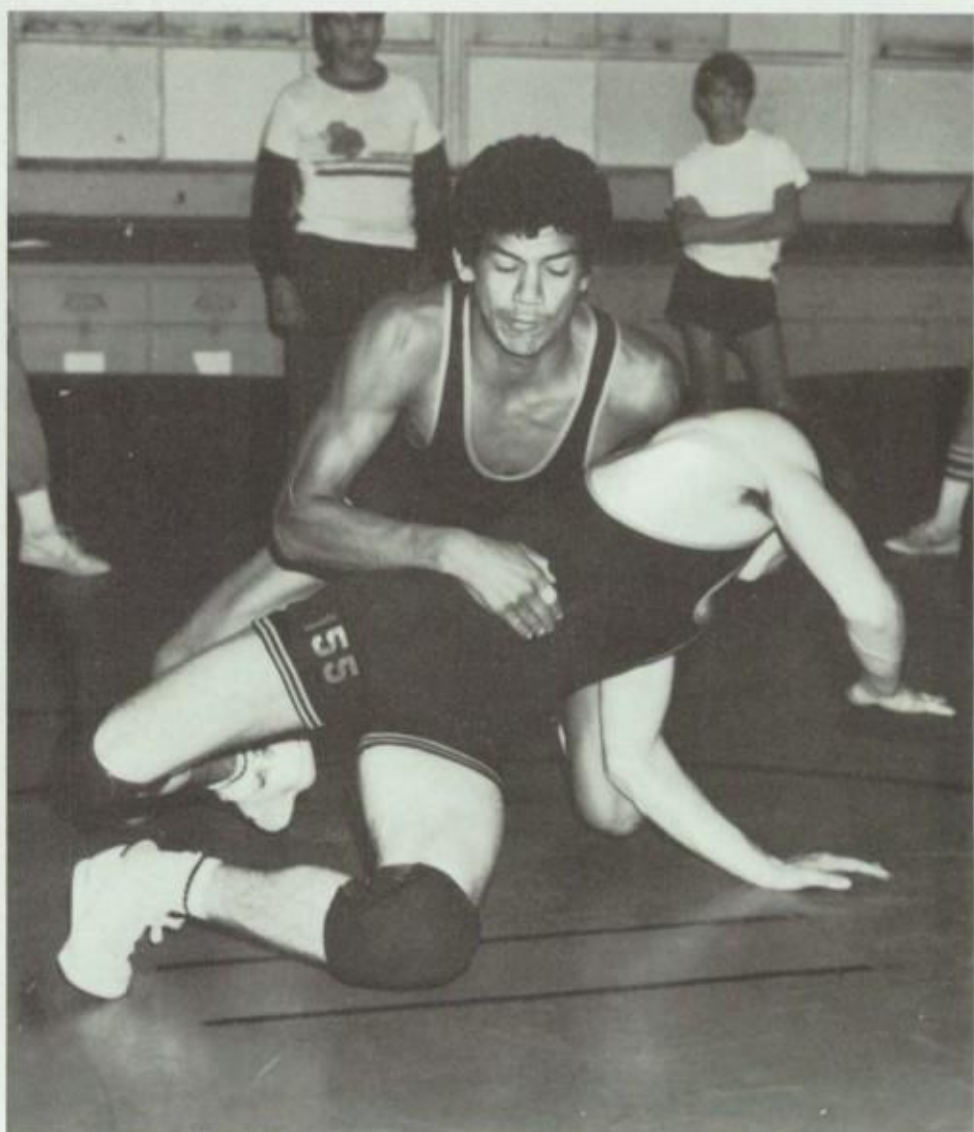

Scott Whitson displays yoga techniques.

Joe Perrez proves perfection while Mark Porraz prepares to meet the mat.

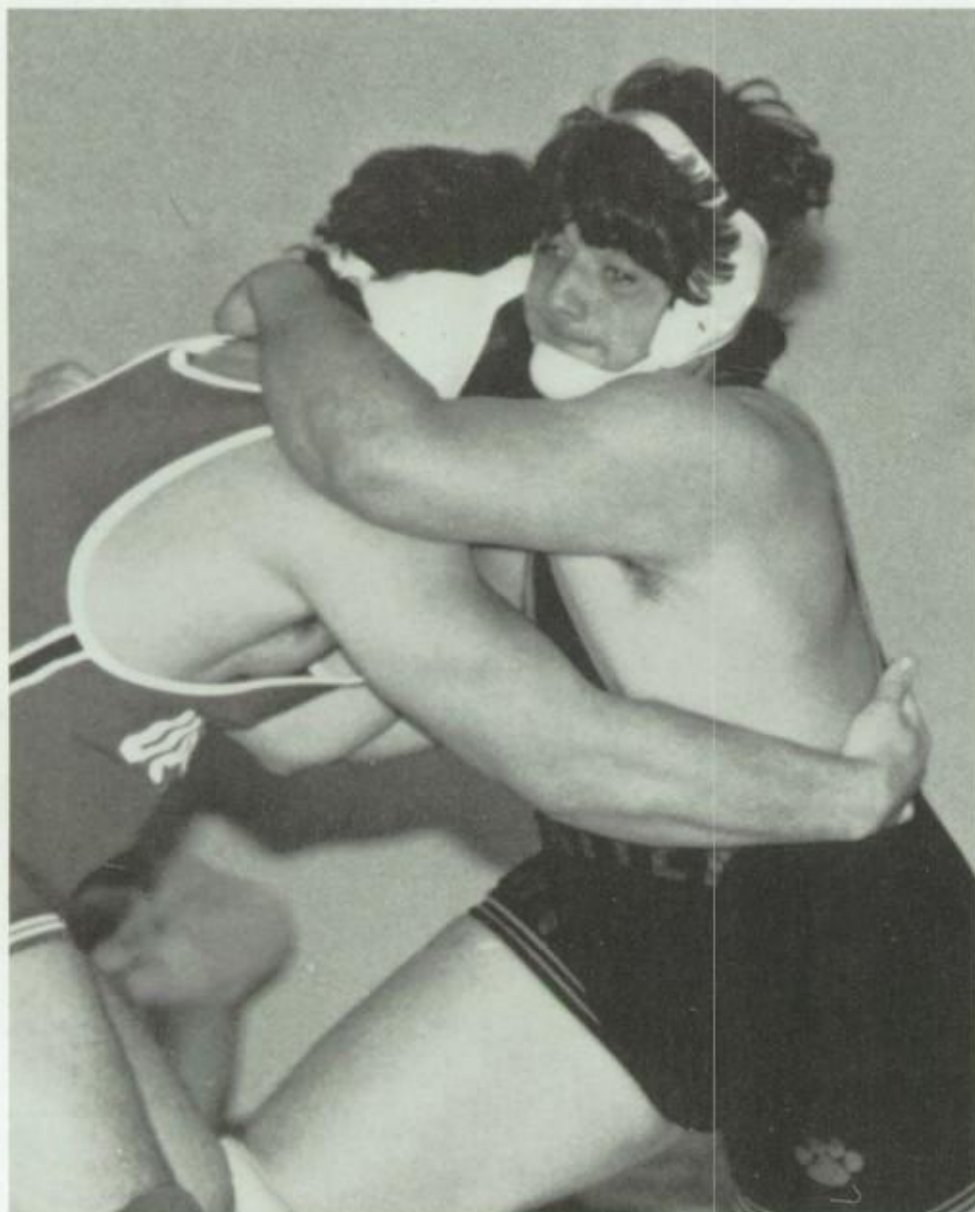

Heavyweight wrestler, Ray Love, gains control over interpart Tony Collucci.

James Harling puckers proudly while perfecting the proper takedown.

With Great Determination Tony Collucci confronts a fellow heavyweight wrestler.

Mike Mathies intently grabs for a takedown maneuver on opponent.

Lightweight Wrestler Rex Delk strives earnestly to "sit out" of a takedown.

Tim Teagle bites like a bear while man-handling his opponent.

Carl Campbell swings for a homerun.

Waiting to plunge into the pool, Robin Hemry wants to win the race.

Not wanting to miss the ball, Nikki Arrington keeps a close eye on it.

Off to a Swingin' Start

The baseball program headed in the right direction well before the season started. Each team had well-defined playing techniques and was confident of its ability to do its best throughout the season.

"This year we have a lot of depth on our team. We have many different people for each position which allows us to be a good team. That's a key factor for our team to make it to the playoffs," said **Rodney Small** about the Varsity Baseball team. With eight returning Seniors — **Carl Campbell, Dennis Johnston, Gary Cook, Jay Agapay, Robert Olmos, Joe Vasquez,** and the captains, **Manuel Ramirez** and **Kyle Larick** — the Varsity team was off to a good start. League play was expected to be the season's highlight due to the number and quality of these returning players.

"My coaching technique will be the same this year," commented **Coach Jim Reno**, "I want to teach them to be aggressive and to force the opposition into making mistakes." The results of **Coach Reno's** techniques were evident early in the season. "We worked hard this year at practices which made us a well-conditioned team," stated **Mike Quinn**.

An added feature to the baseball program this year was the fixing up of Payne Field. Payne Field is now fenced in and has lights. "It looks much better!" replied **Coach Reno**.

The Varsity team wasn't the only team who had it all together. "Pitching should be very strong this year" quoted third year J.V. coach **John Herrera**. The J.V. team had six returning pitchers including pitcher, **Felix Figueroa**, who said, "With all of the talent on this team, we have a great chance of taking the championship this year."

The freshman baseball team was prepared to give it their all. "It's not over till it's over!" replied **Coach Bill Thornhill**. The Freshman team also had a lot of talent. "Speed and hitting are our specialites," said **Coach Thornhill**. "It looks like Chaffey High School can look forward to many successful baseball seasons in future years." ♦

Pitcher Tom Billings watches closely in hopes of a strike.

Returning Strength

Girls' varsity softball team returned behind the strength of ten returning players. Leading returners that were chosen for last year's all-baseline league team were **Alice Camargo** and **Nikki Wyson**, first team; and **Terry Piceno**, second team. As first year coach **Don Nelson** watched his team practice, he felt that their pitching was excellent, their offense was average, and their defense was above average. When asked about the team, **Coach Nelson** replied, "I really enjoyed working with the girls this year. The team constantly supported one another. They really pulled together and I felt that they have the potential to be as good as last year or even better."

The highlight of the season was the team's playing as a whole. **Coach Nelson** felt that most teams would present a challenge, but behind their strong defense, the team should rise to the top. Summing up the season, **Nikki Wyson** said, "Our team has the most spirit out of any other team around. We do have our differences, but when we go on the field to play, we drop everything and play to win." ♦

Front Row: Nikki Arrington, Kim Buttacavola, Shannon Williams, Alice Camargo, Terry Piceno, Amy Colton, and Laura Verret. **Back Row:** Michelle Zerkle, Denise Martinez, Tyisse Boykins, Nikki Wyson, Linda Carroll, Melissa Ramos, Lynette Meza, and Sharon Brown.

Waiting for the catch, Sharon Brown looks to find the ball.

Making the effort, Terry Piceno keeps the ball infield.

Waiting for the pitch, catcher Nikki Wyson prepares herself for the strike.

Determined Amy Colton is ready to handle anything.

"Hey batter," shouts first baser Nikki Arrington.

New Faces

Front Row: Marlene Vann, Paula Gosset, Kim Bosserman, Leighann Schafer, Lisa Perez, and Corina Trejo. **Back Row:** Coach Amy Maraska, Michelle Morgan, Erika Green, Alice Paquet, Corina Ramirez, Deanna Zebro, Denise Escanuelas, Kristi Vivarros, Jeannette Brown, and Coach Donna Maury.

There were many new faces starting out the season for the 85-86 J.V. softball team. Returning coaches **Amy Maraska** and **Donna Maury** felt that there were many girls with the talent to go far. Returning player **Michelle Morgan** said, "It feels great to get together with all my friends and play my favorite sport." **Coach Amy Maraska** replied, "It's great to see the girls come together and play as a team. Every year I see close friendships develop out of the many girls on the team." Second year pitcher **Denise Escanuela** summed up the year by saying, "We learned to work together as a team. It's been fun and something I will always remember."

With perfect form, Leighann Schafer goes for the homerun.

"I got it!" yells a hopeful Lisa Perez.

Talent Takes Them to the Top

Determination shows in Tara Kloodwyk's eyes.

With the largest number of people the swim team has had in four years, talent was abundant. As **Tara Kloodwyk** put it "This year's team was great because there's so many new swimmers with a lot of potential."

Returning swimmers added much strength to the team. **Bryan Burns** and **Robin Henry** lead the team in the breaststroke. The butterfly proved to be **Tara Kloodwyk** and **Travis McElvany's** strongest stroke. **David Labby** and **Bernice Beard** added their talents in the backstroke. All these individuals blazed the way for a successful season.

When asked about the team **Coach Nora Glasco** commented, "They are a good group of kids who are willing to work hard." **Bryan Burns** summed it up saying, "Swimming is the ultimate physical conditioner where we learn self-discipline and how to push ourselves while working on a team." ♦

Front Row: Torii Collins, Yvonne Hatem, Stephanie Spenser, Davina Cromer, Gina Sharrett, Louise Montoya, Tara Kloodwyk, Melinda Saccone. **Second Row:** Angela Alford, Nancy Carter, Noel Canon, Rhonda Hasart, Kelly Bodnar, Marcella Dodaro, Tammy Townsend, LeAnn Semon, Kimberly Roloff, Mike Gentry. **Third Row:** Jad Andre, Steve Jenkins, Tim Blankenship, Kurt Vonhatten, Larry Schual, Randy Howard, Jason Frank, David Chinn, David Labby, Travis McElvany, Bryan Burns, Shaine Bodnar. **Back Row:** Amy West, Tonya Smith, Coach Nora Glasco, Dolores Gonzales, Laura Bottini, Robin Hemry, Bernice Beard.

Mental preparation is part of Robin Hemry's success.

Tigers Set Goals . . .

Farther, Faster, Higher

“Watching the Olympics inspired me to work hard in my events so that maybe one day I could represent my country in the Olympics,” stated distance runner **Tom Coleman**. Other members of the team kept the same attitude as they participated in each event.

Will-power and confidence started the team off in the fast lane. Bringing out the best performance in the Tiger track team was cross-town rival Upland Highlanders. The team set their goals high as **Coach Vasquez** said, “Our goals this year were to throw farther, run faster, and jump higher than any other team in Chaffey’s history. I feel we have some individuals that could very well break a few of the track and field records held here.” A few of these outstanding individuals were **Valerie Aker** in the mile, **Tom Coleman** in the 880, and **Brian McConnell** in the triple jump, long-jump and 220. When asking **Brian McConnell** how it feels to win, he said proudly, “Winning a race after days of hard practice makes you feel great that you are achieving your goals!”

Front Row: Jose Esmerio, Heather Heairet, Monika Montiel, Lydia Edrozo, Kim Shea, Valarie Aker, Shella Burdwell, Cheryl Ray, Babette Meijer. **Back Row:** Gerald Leboewz, Javier Perez, Mark Goth, Alberta Aleman, Tran Dung, Tom Coleman, Cory Holly, Jose Zargoza, Guillermo Camacho, Juan Camacho, Mike Nichols.

Running with determination, Kim Shea concentrates on the finish.

Flying with ease, Alison Guest easily clears the set height.

"Catch me if you can," grunts Julius Watson.

Front Row: Tricia Vlaslak, Allison Guest, Olga Alvarez, Tina Ramirez, Tammy Rideout, Kristine Gale, Gilbert Morreno. **Second Row:** James Placencio, Ademir Bucio, Tristen King, Frank Barran, Chris Jeiuyo, John Buffington, Steve O'Conner, Russel Flores, Christopher White, Ian Scali. **Back Row:** Joe Christensen, Jose Vargas, James Harling, Shawn Stebert, Kristine Geddes, Tony Colucci, John Chimbur, Raymond Love, Patrick Larsson, Franklin Keiki, Julius Watson, Joe Castro, Ryan Balwochus, Brian McConnell, Mike Wortham.

Pacing herself, Babette Meijer runs the mile.

Looking Forward

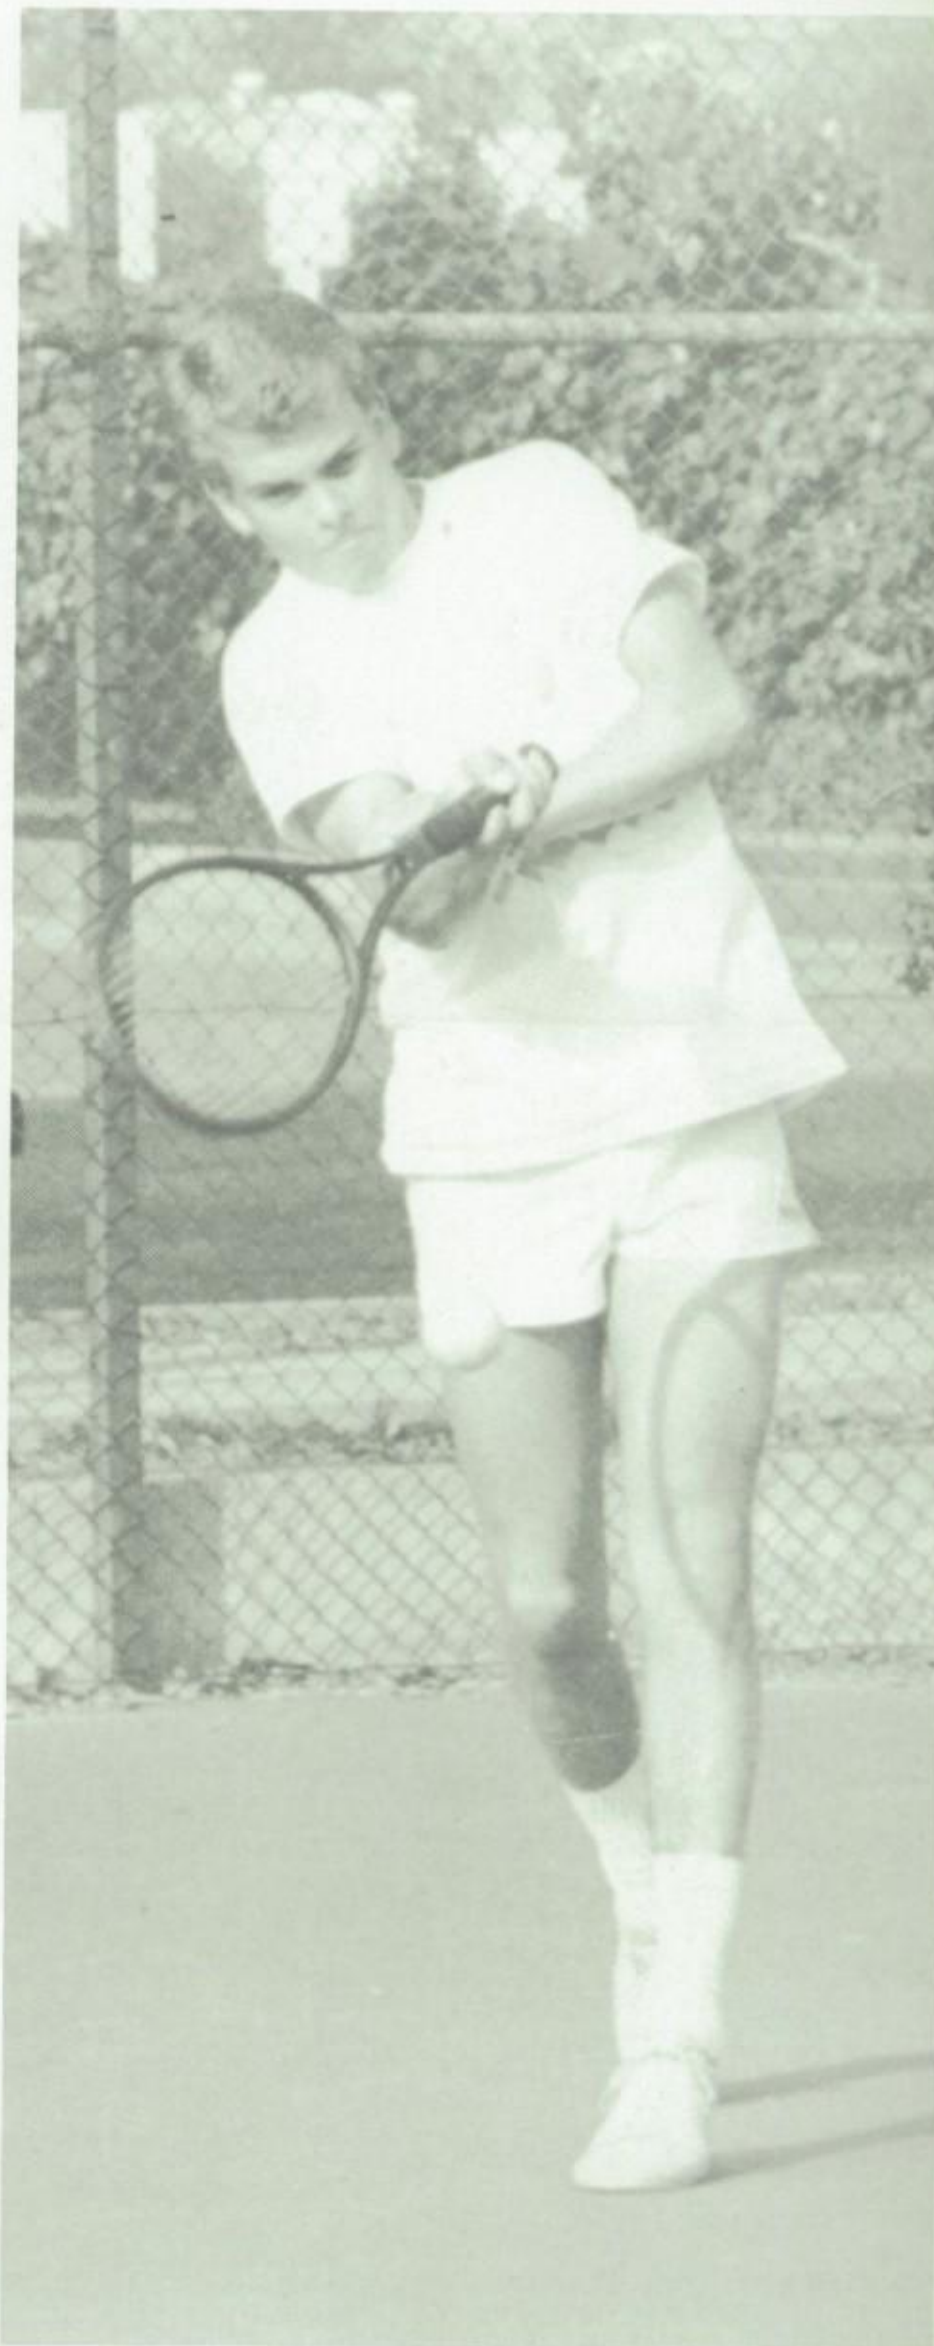

When you begin with a good attitude, you end with a good time. This seemed to be the overall feeling of the varsity tennis team. The team looked forward to improvement in the younger players for future years. "Everyone's just putting out more effort than last year," stated **Greg Pack**.

All of the kids on the team said that they liked the individual competition of tennis, and **Coach Waters** agreed. "These kids had a great deal of competitive desire, and they did their best to be competitive in league. There was a lot of individual competition, and with that competition we saw a lot of individual improvement which will help us in future years." ♦

The dynamic duo of Scott Warford and Danny Franco await the opponent's serve.

Front Row: Greg Pack, Mike Vicente, Scott Warford, Alvin Pepito. **Back Row:** Ralph Armbruster, Mike Wilkens, Coach Wally Waters, Todd Waters, Mickey Deavers.

With Tiger strength, Todd Waters makes his return.

Good-and Growing

With excellent concentration, Mark Vogel goes for the return.

Having no club players, the J.V. team had to learn to cope, but the boys' willingness to learn proved to be the team's greatest strength. The boys really enjoyed playing the sport, so they wanted to improve. **Jalal Andre** stated, "It's fun to improve on your own, especially when you know that you're helping out the team as a whole."

Confident of finishing in at least the top four, **Coach Chilcott** was definitely thinking ahead to future years. He stated, "We've had the biggest turnout for the sport in eight years, so the interest in tennis is obviously picking up. Maybe in a year or two we'll make it to CIF playoffs." ♦

Everybody Is Somebody

There came a time in each person's life when they had to decide who they were going to be. That time usually started during the sophomore year of high school and ended who knows when. It was filled with experimentation, curiosity, confusion, and all around insanity. One would go from one peer group to the next, trying to fit in someplace. No one really knew where they were going or what they were going to do. Yet suprisingly enough everyone survived. They had not yet found that certain direction they were to follow yet they had realized one thing, everybody was somebody. "One day all the confusion will go away, and I'll know what I want. But until then I'll take it as it comes" was the way sophomore **Kim Miller** put it. ♦

What Sophomores Are Really Like

When walking around the quad, one would notice the recurring appearance of the color green and the number '88 on the boiler room. Then, in turn, one would wonder if all of this paint told the truth about the Sophomores. Of course, all the other classes had their opinions of what the class of '88 was like on the boiler room as well, so we asked the Sophomores themselves what they were really like.

Susan Bush: Sophomores are the best class put on this earth!

Latrece Pratt: Sophomores have style.

Veronica Parra: Silly, cool, and rad looking people.

Lonnie Lopez: Sophomores are the Divine Masters!

Karen Somorai: Zany, and overflowing with niceness and cordiality.

Lisa Roland: A bunch of screaming Kiss fans. ♦

Changes

Sophomore year — that magic year of irrevocable changes. Boys that were once short had somehow sprouted over the summer and were now tall and gangly. Girls were entering that wonderful world of dating hopefully, upper classmen. All over the campus the changes became evident. They were no longer the lowly freshmen of the previous year. They had passed their initiation into the world of high school life. They were now able to sit back and watch the incoming class undergo the same rituals. As one sophomore, **Paula Gossett**, put it, "I've changed and I've grown, I had to." ♦

Moving Up the Ladder

The year marked the time the class of '88 was to establish a firm place for themselves as a class at Chafey. After enduring a long freshman year, the Sophomores settled down and realized their place as examples for future classes. The Sophomores' spirit in their class and their school was shown by their frequent academic successes. Knowing that they still had three years to go, however, they weren't above having a little fun. The excuse of being a Freshman was gone, and the Class of '88 began to measure up to the responsibility given to them. ♦

Sophomores spent much of lunch enjoying a game of "Hockey Sack," a diversion of the 80's.

Way to Go

Freshmen transportation had a lot of variation. Since freshmen were not old enough to drive, they had to walk, ride a bike, take the bus or catch a ride to and from school. The one form of transportation hated the most, seemed to be riding the bus. In the morning the bus arrived between 6:30 a.m. and 7 a.m., which was very early. And in the afternoon students always had to be in front of the Math/Science building early or you wouldn't get a good seat!

The other three types of transportation were not quite so bad, so the freshmen say. "Walking to school is not very fun, I wish I had a car." Was **Gloria Garcia's** remark. Of course, if you walked or rode a bike, some people would get pretty wet when it rained. But life would not always be that bad, most freshmen will be coming to school in their own cars or parent's cars in just a few years. High school will always have that cycle of being less fortunate when you first start out but in the end being the best! ♦

What's New?

For many Freshmen, Chaffey High School seemed to be a total change from the Junior High they had previously attended. Some expressed this change as **Connie Kostecky** did, "I thought it was going to be real scary." Though fearful of not being accepted into a group, each seemed to develop friendships that would last almost forever.

One common reaction which many Freshmen shared was that Chaffey seemed to offer more extracurricular activities. As **Alicia Taylor** put it, "There are a lot more dances to attend." This was quite true for many Freshmen had never experienced the glamorous Homecoming dance or exciting Friday night football games. All these activities were designed to unite each and every student both Freshmen and upperclassmen. ♦

You Eat ... Where?

The cafeteria is another side to lunch time. Even if a student did not eat inside the cafeteria, the salad and hot dog bars were taken into account. For many Freshmen, the cafeteria was an experience in itself. It was one of those places for meeting new friends and talking over what had happened in the previous four classes. This place was a change from junior high school cafeterias because one was expected to be mature. That meant no more food fights nor foolish behavior. But Freshmen would not do anything like that, would they? ♦

The Other Side to Pressure

Each year, incoming Freshmen tend to hear that they were going to be dumped, jumped on, or that some Seniors were going to be after them. After that first day, it was not like that at all. Many Freshmen probably laughed at their own thoughts. They realized that the only obstacle was finding the classes. Things turned out all right. Didn't they?

And if they did, the result can be blamed on pressure. Not peer pressure nor negative pressure, but positive pressure. . . This positive side to high school was happening throughout the school year. It was the upper classmen who pointed the way towards the next class. Even that teacher who spent extra time after school to help out. And that newly met friend in one of the classes.

So many positive attitudes were found at Chaffey. It was everywhere around the campus, supporting and guiding Freshmen through. The only thing left to them was to find it. ♦

Moving Up

The Freshmen at Chaffey seemed to all have a positive attitude toward the high school they attended. **Alice Luh** thought, "School had a lot of spirit and the upperclassmen were all pretty nice." Most were pretty nice except those fun-seeking Seniors who did their share of pranks on the Freshmen. Through this, even **Sam Fuller**, a member of Chaffey's band, described Chaffey, "It's the best school I have ever gone to."

The year was enhanced greatly by our principal, Dr. Stine. He also approved many new clubs, such as Expo 25, Speech club and SADD. Everything that surrounded the school seemed to be positive, which made Chaffey a better place for even Freshmen to want to be. ♦

Diamonds are Forever

Our fellow students:

Our main idea for the 1986 ***Fasti*** was to promote the celebration of the 75th graduating class. Diamonds are a symbol of the 75th anniversary, and that is why we chose "The Many Facets of the Stone" for our theme. Chaffey is a many-faceted school, and because of this, we thought this theme would be especially appropriate.

We are in hopes that the publication of this book will be something special to you just as its creation has been for us.

There is a saying that claims "diamonds are forever." We sincerely hope that the memories we have included in the 1986 ***Fasti*** will ***forever*** serve as a reminder of Chaffey's 75th year, and the events which accompanied it.

Best wishes for a brilliant future!

November 8, 1985

It is my pleasure to extend my warm regards to the 75th graduating class of Chaffey High School.

As high school graduates, there are many exciting opportunities awaiting you. As you strive to meet these challenges, may your reflection on past achievements prepare you for the success held by the future. On this special occasion, I am pleased to join your proud friends and family in saluting your outstanding accomplishment.

On behalf of the State of California, please accept my congratulations and best wishes for every success with your future endeavors.

Most cordially,
